Výber časopisov

Publikačné standardy

- Vydávanie pravidelne a včas
- Medzinárodné editorské zvyklosti
- Anglická bibliografia (aleaspoň latinské písmená)
- Recenzované
- Ďalšie informácie (granty, DOI, apod.)

Obsah

- Obohatí tento časopis WoS s novým obsahom?
- Je a ako je táto téma zastúpená vo WOS?
- Porovnávanie časopisu s časopismi vo WOS, ktoré sú v tom obore.
- Kvalita obsahu

Rôznorodosť

- Reprezentujú autori, editori a vedecká redakčná rada medzinárodnú výskumnú komunitu?
- Kto je cieľovou skupinou, medzinárodní čitatelia alebo lokálni?

Analýza citácii

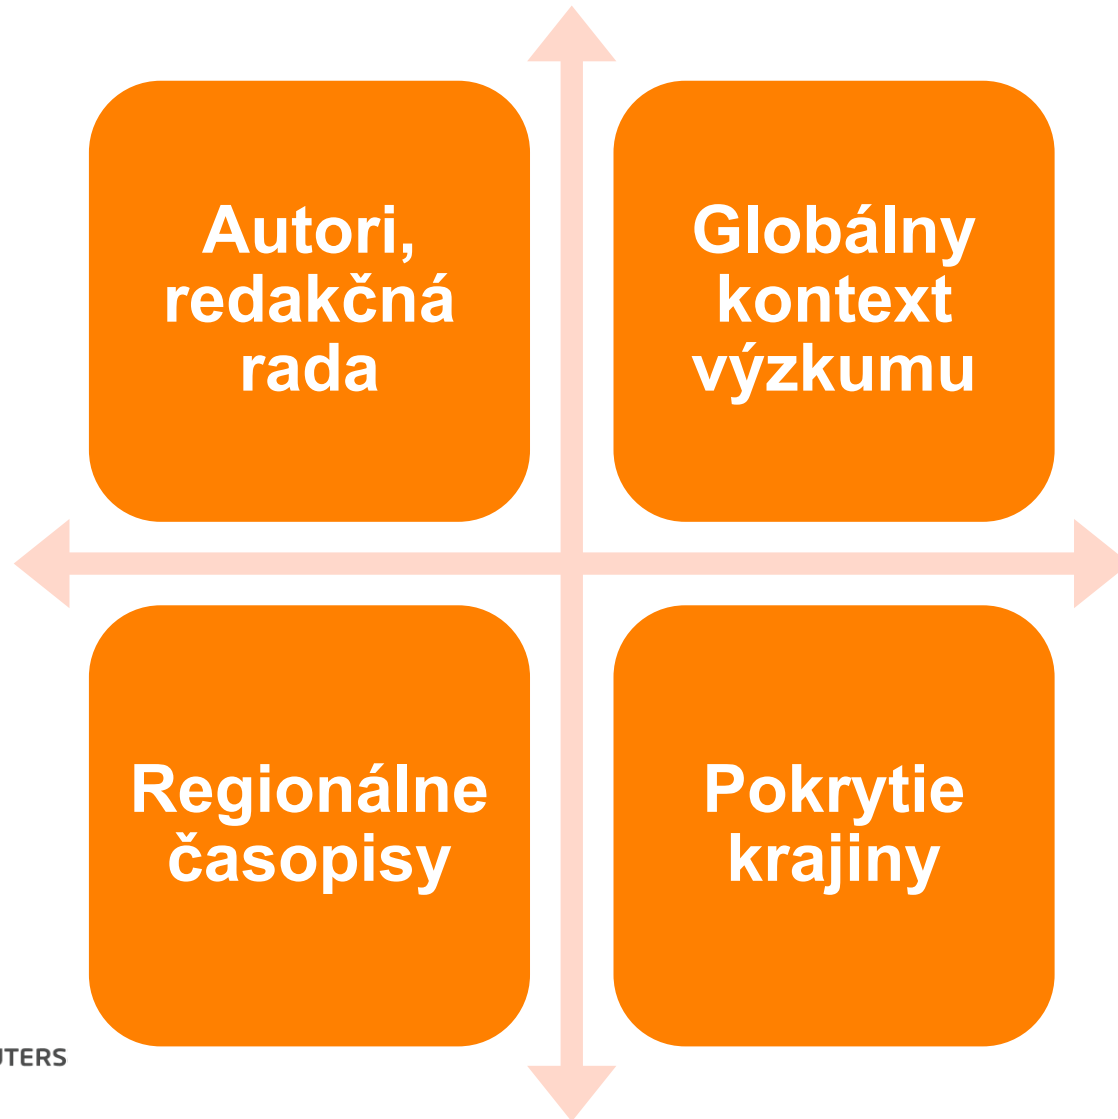

Nové časopisy:

- Citácie na predošlých prác autorov, editorov, recenzentov.

Založené časopisy:

- Impact Factor
- Citačné analýzy

Pár slov o medzinárodnom aspekte

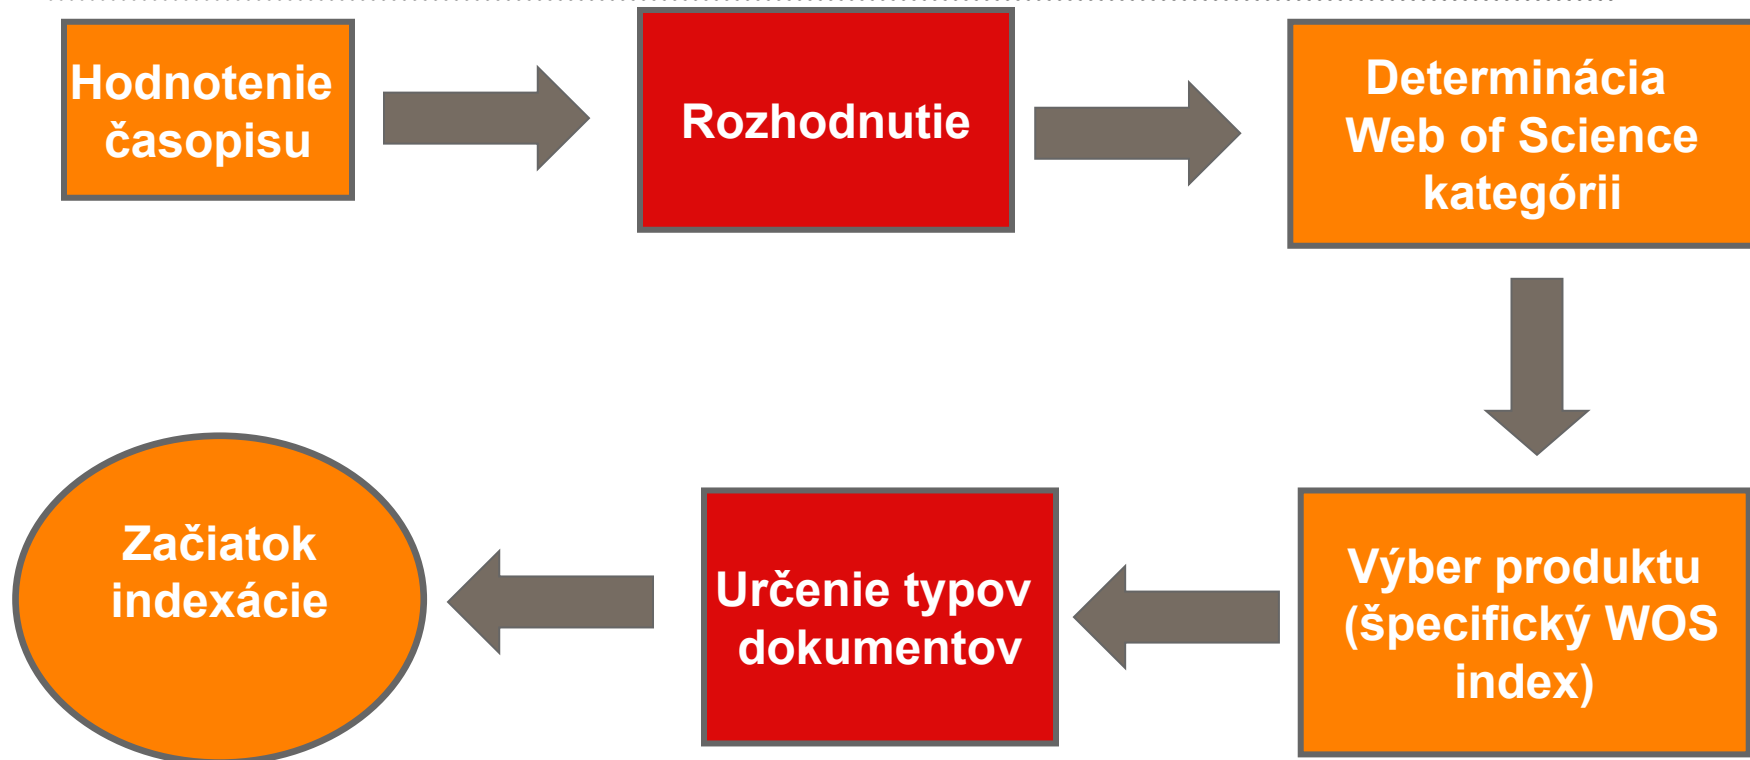

Citačné analýzy

- Všetky citácie sú analyzované
 - citácie z článkov indexovaných vo WOS
 - citácie z článkov neindexovaných vo WOS
- Založené časopisy: priemerný počet citačných ohlasov, impact factor, immediacy index apod., sú počítané podľa dostupných dát
- Nové časopisy, citácie na ostatné publikácie autorov, editorov a recenzentov sú hodnotené

Pár slov o autocitáciach na úrovni časopisov

- Autocitácia je normálny a charakteristický jav
- 80% časopisov v JCR Science Edition majú menej než 20% autocitácie
- Autocitácie súvisia s charakteristikou vedného oboru
- Predmet môže byť úzky, nový alebo len vynárajúci
- Multidisciplinárne časopisy majú spravidla nízky pomer autocitácii
- Vysoká miera autocitácii môže viesť k vylúčeniu časopisu z JCR aj z WOS

Hodnotenie, výber, indexovanie

Sledovanie a hodnotenie časopisu naďalej pokračuje, zahŕňa sledovanie mieru autocitácii, vydávanie včas, dodržiavanie editoriálnych zvyklostí, kým je časopis indexovaný vo Web of Science

Ako podať časopis na hodnotenie do WOS?

-
- Elektronická verzia je preferovaná; viac informácií:
<http://science.thomsonreuters.com/info/journalsubmission/>
 - Treba poslať:
 - www stránky (preferovaný)
 - Prihlasovacie údaje na www. Dôležité: prístup k plnému textu je potrebný po celej dobe hodnotenia (3 zaseboidúce čísla)
 - Tlačaná/Tištená verzia:
 - 3 zasebeidúce čísla posielané do Philadelphie hneď po vydaniu na adresu:

The psychology of emotion regulation: An integrative review

Author(s): Koole, S (Koole, Sander L.)

Abstract: The present article reviews modern research on the psychology of emotion regulation. Emotion regulation determines the offset of emotional responding and is thus distinct from emotional sensitivity, which determines the onset of emotional responding. Among the most viable categories for classifying emotion-regulation strategies are the targets and functions of emotion regulation. The emotion-generating systems that are targeted in emotion regulation include attention, knowledge, and bodily responses. The functions of emotion regulation include satisfying hedonic needs, supporting specific goal pursuits, and facilitating the global personality system. Emotion-regulation strategies are classified in terms of their targets and functions and relevant empirical work is reviewed. Throughout this review, emotion regulation emerges as one of the most far-ranging and influential processes at the interface of cognition and emotion.
