THE ULTIMATE SOLUTION  
TO  
OUTSOURCE ACCOUNTING SERVICES

# OVERVIEW

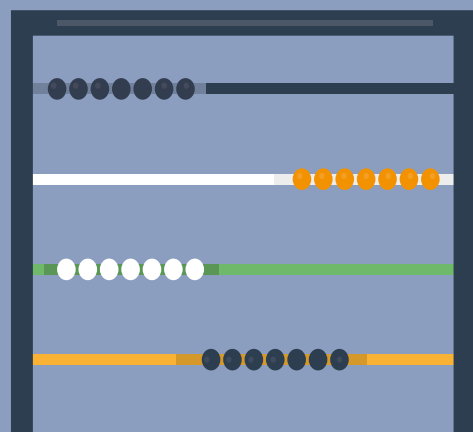

Becomes is a dynamic and fast developing start-up that offers mainly high quality outsourcing of accounting services.

As of today, Becomes considers crucial and strategic to complete its team with motivated, smart and qualified employees, that aim to grow with it in a long term perspective.

That's why the collaboration between Masaryk University and Becomes has started!

NEW PROFESSIONAL SOLUTION

## BECOMES MARKET

Italian Tax Advisors, Chartered Accountants and Companies could benefit from outsourcing their accounting activities, traditionally kept in house, by employing their time and resources on higher-margin core activities - as advisory, investments...

Becomes, focusing its attention on this specific market niche, has found and designed a professional and innovative solution to outsource administrative and accounting services

# WHERE DO WE COME FROM ? ( 2 )

PROCESS INDUSTRIALIZATION

TECHNOLOGY INVESTMENTS

DATA CONCENTRATION

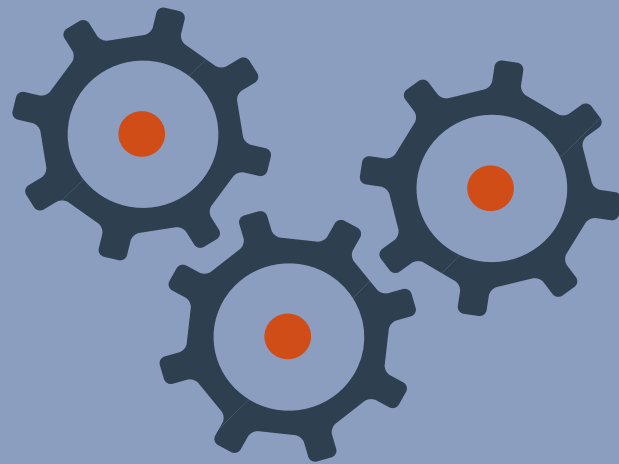

EMPLOYEES SELECTION AND TRAINING

## THE IDEA

Inspired from multinational companies, a group of Italian Professionals and Chartered Accountants had the intuition to relocate and concentrate accounting activities, industrializing processes and investing in advanced technologies.

Core to the outcome of the project is the selection and training of the employees and the Czech Republic was chosen among the countries where excellent graduates can be found, trained and eventually hired

TOP-TIER EMPLOYEES

HIGH QUALITY OUTPUT

## THE IMPLEMENTATION

Since 2011 Becomes has concentrated its efforts on process design and industrialization, on *ad hoc* software development and on ensuring superior quality of the output.

Becomes will invest mainly in identifying the most appropriate technology and in selecting top-tier employees who could go through a specific training program during their entire career path

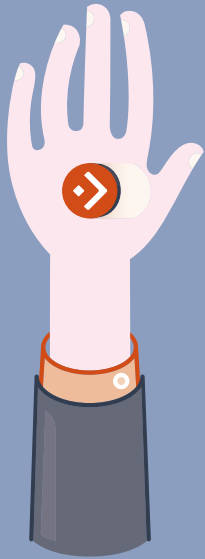

# WHAT WE DO

Becomes has designed and developed a secure standardized process for document reception, classification and accounting that facilitates the work of Becomes operators and ensures enhanced accounting outputs.

The process is straightforward:

- The customer scans its documents and uploads the PDF file on Becomes portal
- Uploaded files are collected by our Document and Process Management Software
- Becomes operators sort and classify documents according to type and due date criteria
- Docs are accounted by Becomes operators through the use of our Accounting Software
- Docs are checked according to a consolidated and standardized program
- The innovative dialogue between the two softwares allows Becomes to connect accounting records to documents, making them always available.

Becomes is able to handle all types of Italian accounting:

- Ordinaria (ordinary)
- Semplificata (simplified)
- Professionisti (professionals)
- Agricoli (agricultural)
- Minimi (minimum taxpayers)

Any need for special treatment can be agreed from time to time with the Customer.

It is customary to manage subjects whose accounting requires specific skills, as pharmacies, sports associations or publishing.

The offer is structured primarily for Professional Studios, Companies or Associations.

Becomes services do not collide with Customer core activities.

# WHAT DO WE OFFER?

- ITALIAN LANGUAGE COURSE  
Masaryk University will arrange an Italian language course designed to train Becomes future possible employees
- SPECIFIC COURSE  
focusing on: Italian accounting and taxes rules and principles, taught in English
- INTERNSHIP IN BECOMES BRNO DIVISION  
deserving students could also have the chance to move to Italy, doing an internship at one of Becomes subsidiaries or affiliates
- FINAL TEST  
to track improvements
- ROLE AS ACCOUNTANT AT BECOMES  
to finally kick off your professional career!

This project has been designed in cooperation with Masaryk University in order to recruit young candidates who, thanks to the support of the Italian Language Course arranged by the University and the Specific Course that focuses mainly on Italian accounting skills, are able to be recruited for a significant experience in Becomes Brno offices or for an highly qualifying Internship in Italy.

Eventually, after a final test to track the improvements - achieved after the stage and the courses - the candidates will join Becomes as Accountants.
