Brno Reservoir = Prýgl

Realization: 1936-1940

Length: almost 10 km

Area: 259 ha

The water is safe for swimming thanks to several recent projects on water quality improvement.

Veveří Castle

Veveří Castle is situated on the right bank of Svatka River near Brno Reservoir. It is about 8.5 km away from the conference venue. You can get there by car, bus or ship.

- Founded in the mid-11th century
- Interesting fact: Winston Churchill visited the castle several times
