MUNI PRACTICALITIES

Generally, you can find all the information you may need in the International Student Guide on [this](#) page. If you have a specific problem that you cannot find, please contact your Masaryk University contact person.

MU organizational structure and search at Masaryk University

See the MU organisational structure [here](#). It may help you understand the MU structure.

If you need to search for a specific person, centre or something else at Masaryk University, you can use this [link](#), which is a general link that you can use for searching for whatever you need at MU. If you want to limit your search to people only, use the link [here](#).

Wi-Fi Access

A majority of Masaryk University's premises are covered by a Wi-Fi network. MU uses eduroam, a world-wide network that enables internet connection at most academic institutions around the world based on the principle of a unified login.

The basic requirement for using eduroam is an active relationship with MU or another academic institution included in the eduroam project. That means that if your university also uses the eduroam system, the login and password from your home university should also work at Masaryk University. If you have no login details for eduroam wi-fi, feel free to contact your contact person at MU to assign you new eduroam wi-fi credentials before your arrival to Brno.

If you are not familiar with eduroam or your university doesn't use it, please see the information [here](#). Keep in mind that in order to be able to use the eduroam system, you must set it up before your arrival at Masaryk university.
