SSH.2013.1.2-1 Overcoming youth unemployment in Europe

Search 1:

We would like to: a) conduct a field research on the conditions which intervene in the transition from education to work of young people (age group 15-24) across European countries and b) identify successful strategies to cope with short and long-term unemployment. In this context our potential contribution to the project would be: a) carry out research activities, including data processing and data analysis; b) identify good practices in the field of youth job insertion; c) dissemination and exploitation of results.
