

Implementation of the **internship model** in **ICT area**

(project at FI MU)

Platform for Industrial Cooperation

Platforma průmyslové spolupráce

CZ.1.07/2.4.00/17.0041

Project partners:

- IBM Česká republika, spol. s r. o.
- Microsoft s. r. o.
- Red Hat Czech s. r. o.
- JIC, zájmové sdružení právnických osob

Best concept?

Whilst company resources are significantly limited, the effect of internship (transfer of knowledge and the overall contribution for all parties) needs to be maximized

- internship is not suitable to draw up like "vacation job" but better approach is to **plan and managed as a project**
- goals, time limitations, resources has to be set → **student's vision is the key factor**

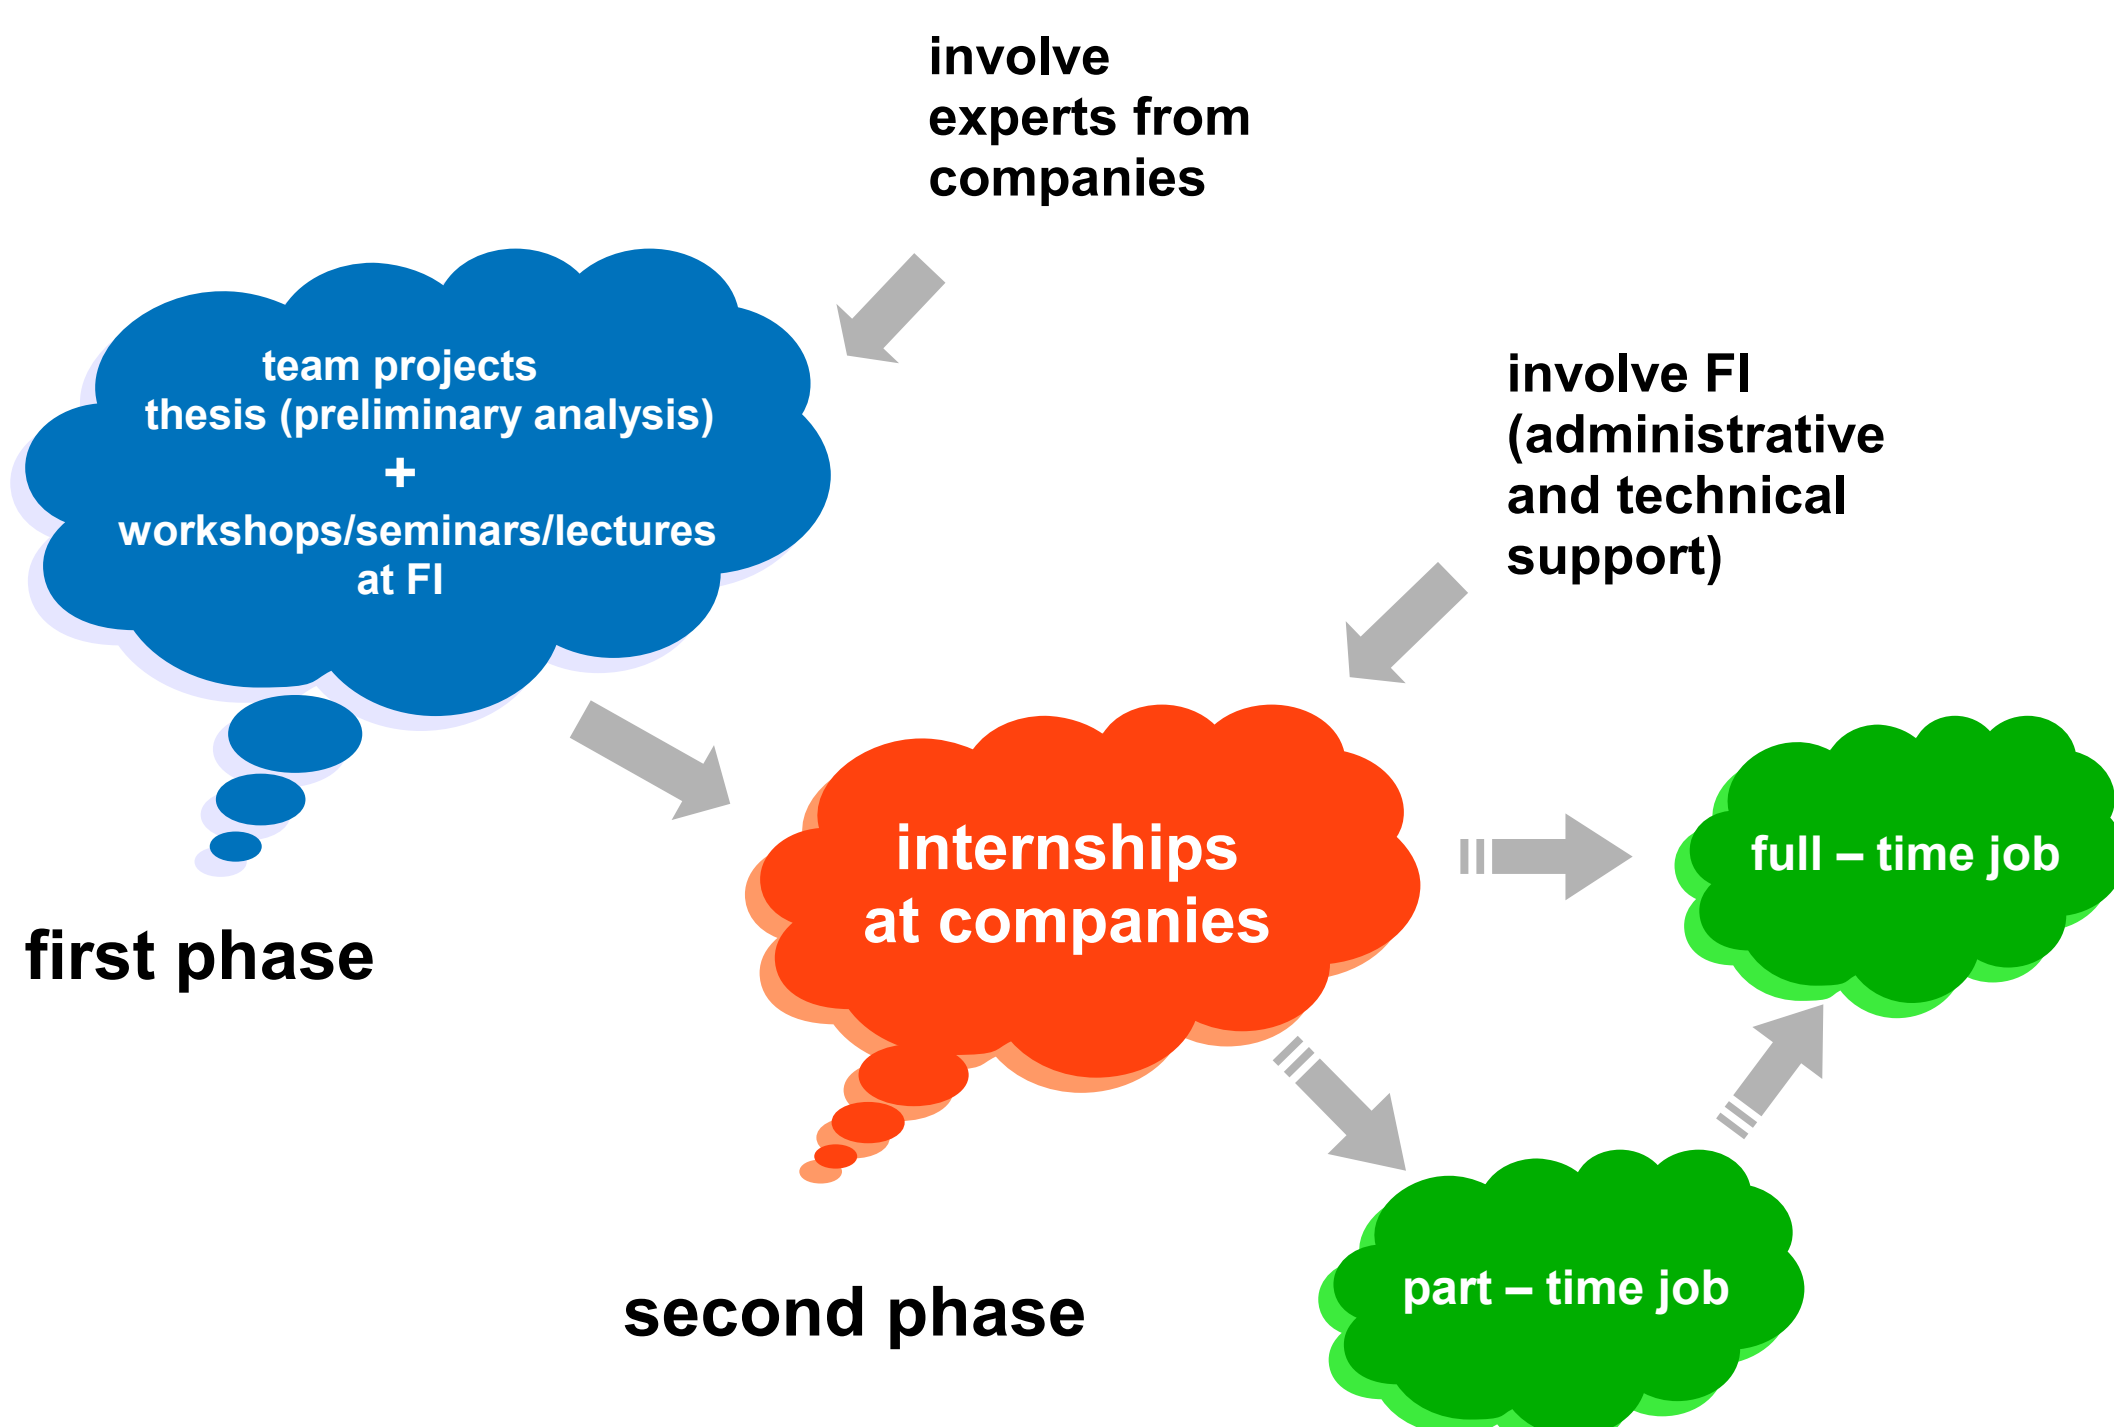

Two-phase model

First phase

- students can work on **real projects or theses** in application area with support of teachers from FI
- students advance knowledge by attending **technical workshops, meetings with experts** from business and/or standard curricula lectures
- students have opportunity to meet specialists from companies directly at FI and become familiar with **practical applications of theoretical approaches and modern technologies** used by companies
- participating in activities of the first phase may help students to determine their **own career vision**

Second phase

- **students go to pre-selected companies** where they can use their experience and knowledge gained from first phase of the internship model, and
- their vision can guide them during the process of setting strategy and goals for their internship → thus **they are able to plan and manage it**

Q: What is in it for me?

Benefits	F	I	S	C
shaping own future		✓	✓	✓
establishing contacts	✓	✓	✓	✓
praxis related to studies	✓	✓	✓	✓
enrichment of theoretical knowledge by experience	✓	✓	✓	✓
systematic building and extending knowledge	✓	✓	✓	✓
source of potential employees and employers			✓	✓
financial support of PPS		✓	✓	✓

FI – Faculty of Informatics, S – student, C – company

INVESTMENTS IN EDUCATION DEVELOPMENT

This project is co-financed by the European Social Fund and the state budget of the Czech Republic
