1 Projekty, pro ktere mame garanty

1.1 Analyza moznych nahrad cyrus-imapd

Shrnout dostupne (opensource) IMAP servery jako alternativy k cyrus-imapd, shrnout jejich soucasne i potencialni moznosti a doporucit nekterou z nich.

Dlouhe zadani:
Shrnout dostupne (opensource) IMAP servery jako alternativy k cyrus-imapd, provest srovnani z pohledu:
- funkcionality: IMAP4rev1 rozsireni, replikace, cokoliv zajimaveho
- skalovatelnosti
- stability/architektury
- rozsiritelnosti (existuje API pro tvorbu zasuvnych modulu umoznujici neco jako virtualni pohled na mailbox? Je v planu?)
- licence, plany komunity kam chce smerovat budouci vyvoj

A nasledne doporucit nahradu vhodnou pro potreby nasich produktu.

Znalosti:
anglictina(!), kriticky pohled, schopnost zhodnotit kod a odhadnout jeho rozsiritelnost

1.2 Dochazkovy system

Navrh (a implementace) dochazkoveho systemu; analyza soucasneho stavu (timesheets, turnikety a data z turniketu); pravni analyza

Znalosti: .NET, C#, databaze

Vysledek: Navrzeny a idealne i implementovany dochazkovy system, ktery podle informaci ze vstupnich turniketu predvyplni hodnoty v interni SharePoint aplikaci (timesheets)

2 Potencialni projekty

2.1 Documentation

The aim is to analyze requirements on product documentation – input from technical support staff, customers (via customer questionnaire), product management, development. Evaluate possible technologies and solution for documentation management, evaluate feasibility, effort and possible gains of moving Acision products documentation to selected documentation management system. Create demo of implementation for selected product.

Qualification: Knowledge of documentation management, strong communication and analyses skills; ability to create functional demo.

2.2 Analyza pozadavku na GUI a moznych technologii

Zadani (mozna i nekolik) bude az pristi tyden.
