

The IBM Delivery Center Central Europe – Brno is one of the biggest and most diverse IBM centers of its kind worldwide. Its core activities focus on providing strategic outsourcing services – remote server and application support, networking services and end customer support.

Asset Management Project

business need revalidation of exceptional team requirements and asset assignments

Character of the project

business (five months)

Description of the project

There are many exceptionally assigned assets within the Delivery Center and many specialized teams that have specific requirements. Currently there is no evidence of such exceptions. The goal of the project will be to revalidate all exceptionally assigned assets in teams and create a database of these exceptional cases.

Work activities

- ✓ revalidation of exceptionally assigned assets to individuals/teams,
- ✓ determination of special requirements of teams with respect to internal movements,
- ✓ creation of a dedicated database of all exceptions within IBM.

Compensation

non-paid position

Internship program
Sep – Feb 2012
