IBM Internship Program 2013

The IBM Delivery Centre team in Brno makes it possible for you to take part in interesting IT projects within The Internship Program. This program is available from March – June 2013.

IBM Delivery Center Czech Republic Brno is one of the biggest and most diverse IBM centers of its kind worldwide. Brno centre core activities focus on providing strategic outsourcing services, remote server and application support, networking services and end customer support.

Asset Management project

You will have the opportunity to become part of Site Operations team and help deploy asset management system into production. You will gather missing information about asset and seat allocations within the company and transform them into usable data for the newly developed tool.

Additionally, you will use your expertise in business process management to setup new business processes and improve currently used processes with regard to use of the new tool. It is expected that you will introduce new ways of using the tool and suggest improvements to the basic functionality. You will learn about the internal process setup of the company and will gain valuable experience in utilizing soft-skills.

Skills required:

- basic knowledge of MS Excel (or open source alternative)
- basic knowledge of Business Process Management (BPMN is advantage)
- understanding management by competencies
- communication and negotiation skills
- pro-active approach, responsibility

You will have the opportunity to:

- get hands-on experience in an **IT leading global company**
- **meet the TOP IT experts in the world**
- have individual support from **your own mentor**
- improve your English skills
- attend **internal IBM trainings**
- meet people from all over the world
- **network**
- **have further cooperation with IBM**

Working hours are flexible, ideally 20 - 30 hrs per week. Detailed description of internship will be given at the interview.
