

HTML/CSS Developer - internship

Would you like to get valuable practical experience and have some fun along the way? Apply for an IT internship in Skypicker - one of the coolest Czech startups with a globally successful product!

Skypicker is a Brno-based tech startup building a global flights directory, allowing customers to find and book the best and cheapest flights. We are growing like crazy and expecting even more. To achieve that, we want to have a great team of motivated and fun individuals, who are not scared of a challenge or of tasks they may not have encountered before.

Would you like to see behind the curtains of our front-end team? Are HTML and CSS your good friends and are you looking for an opportunity how you can create interesting outputs out of them? Interested? Then read on!

We want you to know/have:

- HTML 5, CSS, CSS preprocessors (Stylus preferably)
- Basic designing experience in Sketch or Photoshop
- Experience with responsive layouts
- JavaScript basics

Plus you can know more about:

- Bootstrap or other CSS frameworks
- Live prototyping in Angular or at least some prototyping tool

We offer:

- A unique experience of growing with one of the hottest Czech startups operating globally
- A very friendly work environment (pet friendly, too)
- Freedom at work
- A dedicated and motivated team
- Free refreshments (fruit, soft drinks, Red bulls...)

If you like what you're reading, let us know that by sending your CV to **Nina Paulisová** (nina.paulisova@skypicker.com)!
