

HTML/CSS Developer - internship

Would you like to get valuable practical experience and have some fun along the way? Apply for an IT internship in Kiwi.com - one of the most exciting Czech companies with a globally successful product!

Kiwi.com, formerly known as Skypicker, is an online travel agency with groundbreaking Virtual Interlining technology and a focus on exceptional customer service. Our unique combination algorithm allows our customers to combine flights from non-cooperating airlines onto a single itinerary, often resulting in significant savings.

Would you like to see behind the curtains of our frontend team? Are **HTML and CSS** your good friends and are you looking for an opportunity how you can create interesting outputs out of them? Read on!

We want you to know/have

- HTML 5, CSS, CSS preprocessors (Stylus preferably)
- Basic designing experience in Sketch or Photoshop
- Experience with responsive layouts
- JavaScript basics

Plus you can know more about

- Bootstrap or other CSS frameworks
- Live prototyping in Angular or at least some prototyping tool

We offer

- Experience the unique spirit of one of the most promising Czech startup companies
- Very friendly work environment (dogs are welcome, too)
- Free refreshments (coffee, fruits, soft drinks...)

If you like what you are reading, let us know that by sending your CV to **Kateřina Klepková** (katerina.klepkova@kiwi.com).
