

## interim - product management

---

### What will you do?

- Practice the product manager role in an internal startup Legato
- Create a product landing page—design, copywriting
- Attract users to the landing page (AdWords, communities, discussions)
- Analyze their behavior and preferences with Smartlook
- Develop scenarios and conduct testing with selected beta-users
- Help to define Legato pricing model

### What is Legato?

- Application which helps the lawyers to get more done
- Organize all case related documents on one spot
- Effectively search even in scanned files
- Annotate, comment and co-ordinate work with other users

### How is it in SDE?

- Okay. We are nice and cozy office on Dornych street - no open space
- There's always a team around to help you and move on
- We sport together and like chill-out on numerous company events
- If you're really good, you may travel to the US to meet the users personally
