- Majales- was successful and had good conversations with other organisations

 - T-shirt competition has started and the poster has been posted- people have said that it is the wrong time to have it as people don't have enough time.
-
-

Education

- Iraklis talk was successful however, we in future need to know of the content of talks that happen and our name is on which didn't happen in this case.
 - The education committee has still to be decided and there is a problem of deciding what to do about Joana Duarte who applied- it has been decided to put her on a form of probation to see if she is fit to serve us in a positive way.
 - We still require a 1st year dentistry rep. a situation which is not worth rectifying at this late stage of the semester. – the class have a problem with the anatomy syllabus and not being given sufficient time for tests- so the education dept. will speak with and discuss the situation to see the full extent of the problem.
 - Feedback and elective forms are being sorted by Shan
 - Research project information is being sent out and a video on how to access it will be made- important more for the next semester-
 - Medics Sans Frontier – there is a talk happening in the future- more information to follow

Treasurer

- Mistreatment of things given to MIMSA- we must return things in the same situation in which they were given to us or we will be forced to replace them
 - There are cash irregularities- so there is a payment in form which will be used- Don't put random money exchanges into the cabinet that there is no description of.
-

IT

- There are issues with the current website that means that we are unable to upload pictures-
 - The email interface of the IS.MUNI has been asked to be translated into English- we will ask the Dean to have this done if not done soon-

-
-
- We now have departmental emails- these will be used instead of personal ones that we use now- the info@mimsa.cz will be managed by the general secretary still-
