Problems from students

- 1st year Biology, negative marking has been added for the exam and the warning period was not sufficient for the students to know about this- The issue is that under university rules they should be informed about this issue at the start of the course, not half way through it.
 - Sports enrolment is overly complex and most students don't know when the enrolment period is, proposed to make a translated step by step guide of how to do it all.
 - Cards need to be issued to the new students when they present themselves in the office with the correct documentation.
