

## **FEMALE GENITAL ORGANS** **ORGANA GENITALIA FEMININA**

### **INTERNAL ORGANS:**

ovarium  
tuba uterina  
uterus  
vagina

### **EXTERNAL ORGANS**

mons pubis (veneris)  
labia majora pudendi  
labia minora pudendi  
clitoris  
bulbus vestibuli  
glandulae vestibulares majores et minores

### **OVARIUM**

4x2x1 cm, 6g  
facies lateralis, medialis  
margo liber, mesovaricus-mesovarium-hilum ovarii  
extremitas tubaria - lig. suspensorium ovarii  
extremitas uterina - lig. ovarii proprium  
nullipara - fossa ovarica  
multipara - fossa Clavigii  
epithelium, tunica albuginea, cortex ovarii - folliculi ovarici primarii,  
folliculi ovarici vesiculosi (Graaf) – ovum, antrum folliculi,  
liquor folliculi, membrana granulosa – cumulus oophorus,  
ovulation, corpus luteum menstruationis/graviditatis, progesterone, estrogens, medulla  
ovarii  
a. ovarica, r. ovaricus a. uterinae, v. ovarica, nodi lymphatici lumbales, plexus ovaricus

### **TUBA UTERINA**

10-12 cm  
ostium uterinum tubae, ostium abdominale tubae uterinae  
pars intramuralis, isthmus, ampulla, infundibulum - fimbriae, fimbria ovarica  
r. tubarius a. ovaricae, r. tubarius a. uterinae  
plexus venosus uterinus, nodi lymph. lumbales  
plexus ovaricus, plexus uterovaginalis

### **UTERUS /HYSTERA/METRA**

7x5x3 cm, 40-50 g (1000 g)  
corpus uteri, cornua uteri, fundus uteri, isthmus uteri,  
cervix uteri - portio supravaginalis, portio vaginalis  
facies vesicalis, facies intestinalis, margo uteri dx. et sin.  
cavum uteri (6 cm), canalis cervicis - plicae palmatae,  
canalis isthmi (orificium internum canalis cervicis)  
ostium uteri (orificium externum canalis cervicis)

**anteversio, anteflexio, lateroposito, dextrotorsio**

**(retroversio, retroflexio)**

**ligamentum latum uteri - excavatio vesicouterina, excavatio rectouterina (Douglas)**

**parametrium - lig. cardinale uteri, ligg. sacrouterina, ligg. vesicouterina - ligg.**

**pubovesicalia, lig. teres uteri**

**endometrium - zona functionalis, zona basalis, myometrium - stratum supravasculosum,**

**vasculosum, subvasculosum, parametrium**

**a. uterina, plexus venosus uterinus, nodi lymph. lumbales, inguinales spf., iliaci int. - n.**

**lymph. parauterinus (Bayer), nodi lymph. iliaci externi, sacrales**

**plexus uterovaginalis**

**menstrual cycle: phase of proliferation**

**phase of secretion**

**phase of ischemia**

**phase of desquamation (menstruation)**

## **VAGINA**

**ostium vaginae - vestibulum vaginae, hymen (anularis, cribiformis, septus, semilunaris), carunculae hymenales**

**paries ant. et post. - rugae vaginales - columna rugarum ant. et post., carina urethralis vaginae, fornix vaginae**

**septum urethrovaginale, septum rectovaginale, paracolpium, m. pubovaginalis**

**r. vaginalis a. uterinae, plexus uterovaginalis,**

**nodi lymph. iliaci int. , inguinales spf.**

**plexus uterovaginalis, n. pudendus**

## **ORGANA GENITALIA FEMININA EXTERNA**

**Mons pubis - pubes**

**Labia majora pudendi - 8 x 2cm, sulcus genitofemoralis, commissura labiorum anterior et posterior, rima pudendi, perineum, raphe perinei**

**Labia minora pudendi - 4cm x 5mm, sulcus interlabialis, praeputium clitoridis, frenulum clitoridis, frenulum labiorum pudendi - fossa navicularis, smegma praeputii**

**Vestibulum vaginae - glandulae vestibulares majores (Bartholini), glandulae**

**vestibulares minores**

**Clitoris - crura clitoridis, corpus clitoridis, glans clitoridis, corpora cavernosa clitoridis, fascia clitoridis, lig. suspensorium clitoridis, lig fundiforme clitoridis**

**Bulbus vestibuli - 3 x 1 cm, pars intermedia, m. bulbospongiosus**

## **PELVIC FLOOR**

### **DIAPHRAGMA PELVIS**

#### **1. M. levator ani**

**- m. iliococcygeus - arcus tendineus m. levatoris ani, lig. anococcygeum**

**- m. pubococcygeus - hiatus genitalis**

**- (m. puborectalis)**

#### **2. M. coccygeus**

## **DIAPHRAGMA UROGENITALE**

1. M. transversus perinei profundus - lig. transversum perinei
2. M. sphincter urethrae
3. M. transversus perinei superficialis

## **MUSCLES OF THE EXTERNAL GENITAL ORGANS**

1. M. ischiocavernosus
  2. M. bulbospongiosus
  3. M. sphincter ani externus
- Centrum tendineum perinei

**Fascia pelvis parietalis** - fascia obturatoria (arcus tendineus m. levatoris ani), fascia diaphragmatis pelvis superior, fascia diaphragmatis urogenitalis superior, arcus tendineus fasciae pelvis

**Fascia pelvis visceralis**

**Fascia diaphragmatis pelvis inferior**

**Fascia diaphragmatis urogenitalis inferior - spatium perinei profundum**

**Fascia perinei superficialis - spatium perinei superficiale**

**Fossa ischiorectal, canalis pudendalis (Alcock)**
