ATTENTION! 1. This template is intended only for study programmes taught in Czech language. If your study programme is taught in English, you must use another template (with the suffix "english"), which contains an English title page and bibliography record. 2. An integral part of the template is a user manual. The manual describes how to set opening pages, use built-in styles, insert figures and tables, and generate special content. Unauthorized changes in the document, make it very easy to disrupt its structure and destroy formatting. Click in this frame and press the DELETE key to remove this warning.
