Z feedbacku

Course feedback

"And what surprised me about the course? The attitude, the system and the transparency. EA is not a boring course, you have fun while studying. Your work is important. I guess nothing can top that.... On the other hand, it hasn't always been just about having fun. I found it hard to put my thoughts into (English) words.... To sum up, EA was a wonderful learning experience...."

Děkujeme za pozornost a prosíme o komentáře.
