

LETTER OF INTEREST

Name of the candidate:

PhD study programme:

Topic of the PhD project:

Part 1 - Accomplished research project

Write about a previous research project you have completed (diploma thesis or equivalent). Indicate the project's title, outline its aims, and specify your contribution.

Part 2 - Motivation for PhD studies

Explain your motivation for pursuing PhD studies and specifically why you are interested in the chosen topic of the PhD project.

Part 3 - Contact on referees

Please list below the names of 1-2 referees who are familiar with your academic background and would agree to write a recommendation on your behalf. Note that the number of required recommendation letters varies according to the programme requirements: 2 for Genomics and Proteomics and Plant Anatomy and Physiology, and 1 for all other programmes.

Referee 1

Name:
