Help and instructions

Access test

Access does not work...

Access from FN Brno

Access from St. Anne's Univ. Hosp.

For accessing ClinicalKey, we need to connect to Masaryk University network via **OpenVPN remote access.**

**HOW TO:**

- 1) Visit <https://eresources.muni.cz>
- 2) Choose „Remote access“ - „Help and instructions“.

## New resources

9.4.2020

Feedback 

### VPN

Requires to install and run a special application. After the log-in, users can access electronic resources the same way as if the computer was inside the university network. Recommended for frequent and intensive work with the resources.

**+** easy to use, your computer is a part of the university network

**-** installation of a special application (requires administrator account)

[More](#)

### EZproxy

Connection via the prepared "EZProxy" links. These links are generated by the Portal EIZ when the user connects to university network from the outside. Recommended for quick access to a single resource.

3) Click the link „More“ in VPN section. Install and run OpenVPN according to instructions.

### Shibboleth

Institutional login – log in to a resource directly at its web page with the university credentials (UCO and secondary password). If a web page supports Shibboleth, the Portal EIZ provides Shibboleth links automatically.

**-** not supported by all resources

[More](#)

majority of electronic resources – ones that are open to the entire university, at the very least. Some of the resources are available only at certain faculties and users may have to use dedicated faculty [faculty VPNs](#).  
Please contact your faculty library for more information about these resources.
