

The background of the slide features a repeating pattern of stylized, overlapping leaves in various shades of yellow and gold. The leaves are rendered in a flat, graphic style with visible veins. The overall color palette is warm and monochromatic, ranging from light cream to deep golden-brown.

Support of small and medium-sized enterprises

Importance of SMEs

- Business environment
- Structural changes
- Stabilizing element

EU: backbone of European economy

Economic and social contribution

- structural changes
- subcontractors
- new technologies
- marginal areas of the market
- development of regions
- new jobs
- main factor of economic development

Disadvantages of SMEs

- low economic power
- access to capital
- education, information, consulting
- unfair competition, dumping
- public contracts
- payment habits
- administrative requirements

Targets of support policy

Main target

To ensure the competitiveness of SMEs in the CR and thereby keep and support the ability of these firms to create new jobs, to influence economic growth and to decrease differences among regions.

Other targets

- Conditions for business
- SME as subcontractors, export, commercialization of results of research, knowledge economy
- SME as creators of new jobs,
- Base for support of enterprises
- Infrastructure for business

Indirect x direct support

Indirect support:

- create a favourable environment
- easier administration, information, training, consulting, industrial zones

Direct support:

- access to finance – subsidy, guarantee, loan with reduced interest rate

Using the support

For example:

- investment projects
- professional skills
- consulting
- research and development
- contacts and cooperation
- quality of the production

Czech-Moravian Guarantee and Development Bank

www.cmzrb.cz

CMZR Bank's long-term goals and primary business are focused on providing assistance to small and medium-sized enterprises with the aim to enable them easier access to financial capital, share their business risk and reduce their project costs through different types of support tools as bank guarantees, preferential loans and financial subsidies or grants.

Besides that, CMZR Bank also participates in the realization of state policy aimed at the support of financing specific projects helping to improve regional technical infrastructure and panel-block houses reconstruction.

CMZR Bank is the only development bank in the Czech Republic with the mission to facilitate the implementation of the Government nationwide economic strategy, as well as the individual regions policy related to economic sectors, which require support of public finance.
