Door No. 638
psmutny@econ.muni.cz

The aim of the course:

Students are given a chance to apply their theoretical knowledge in writing case studies where they aim to solve business / managerial problem of their own choice. Students work in small teams.

Requirements:

- to present the results of your work;
- to hand in a written paper.

Time schedule of the course:

WED 18/02/2009 Lecture – introduction to the course, introduction to project management
WED 25/02/2009 Lecture – Critical path method
WED 03/03/2009 Lecture - Risk management

The rest of the course will consist of regular consultations over the projects. These consultations are scheduled as follows:

WED 25/03/2009 Consultation – all students should be present (room S3)
WED 08/04/2009 Consultation – all students should be present (room S3)
WED 22/04/2009 Consultation – all students should be present (room S3)

Besides these regular consultations, individual consultations can be arranged. In this case please don't hesitate to contact me to arrange for the particular date and time of the meeting.

The course will be completed by your presentations. Presentations will take place at:

WED 06/05/2009 Presentations –all students should be present (room S3)
