READING, p. 73

something you already know.

- 1. Explain the expressions a) " money for an old rope", b) jack in their ordinary jobs
- 2. Which industries tend to spend most money on consultating services? What do they expect from consultants?

- 3. As consultancy business is relatively young, it tends to be less competitive than other businesses. T/F
- 4. Which employee target groups do consultancy companies usually try to attract and how? What do they want in return?
- 5. What strategies may some consultants be using to get more business?
- 6. Explain the expressions "unscrupulous" and "with hindsight".
- 7. How do clients sometimes put pressure on consultants?
- 8. Explain the expression: some companies are "high maitenance".
- 9. Why can an inexperienced client find himself in a situation where they are paying a huge fee for substandard services from consultants? How does the industry protect itself from underperforming consultants? Why is the existing protection still insufficient?
- 10. What general tendency in busines today has made it easier for consultancy business to thrive?
- 11. It's not easy for a client company to choose a suitable consultant. T/F
- 12. Give an example of consultancy service which worked extremely well and failed in two projects assigned by the same company.
