

## **PRESENTATION No 1**

### **A 12 MINUTE POWERPOINT LECTURE– POPULAR SCIENTIFIC TOPIC**

You are a grammar school teacher. You need to explain to your 18-year old students the basics of the chosen popular scientific topic.

⇒**TASK: Give a 12 minute PowerPoint lecture. In your lecture you will**

- explain a specialist topic in a way comprehensible to the layman.
- use the facts given. If necessary some information can be omitted or expanded by using information from other sources.
- use visual aids.
- use animations, videos (not compulsory) and comment on them. *!!!!No internet access in classrooms!!!!*
- share your personal interest in this topic.
- emphasize how your students will benefit from having this information.
- include questions for the audience to test YOU if you have done a good job explaining it. (the length of Q&A session is not included in the required speech length. However Q&A session should be longer than 4 minutes)

Marking scale:

**A** (36-34)

**B** (33-30)

**C** (29-27)

**D** (26-25)

**E** (24-22)

**F** (21-0).
