

Read through this text. Then use the words in capital letters below it to form a word that fits each space.

Like all (0), Elias Howe had sudden 'flashes of (1)'. His strange dream is just one example of (2) processes that are still beyond our (3) This is why there is so much (4) about dreams and what they really are. Dreams have no (5) at the time we have them. Our (6) of dreams happens after they are over. Some (7) think that our dreams are partly the (8) of our unconscious minds. Our memory of the dream may be (9) different from the dream we (10) had.
