<http://espn.go.com/golf/statistics>

I used a macro to import all of the data at once, and then I cleaned it up as shown here. The ages on each sheet are as of that year. For example, the ages in the 2005 are ages as of 2005.

This web site is tricky. It shows three sets of stats: Regular, Expanded I, and Expanded II. The Regular stats are shown in descending order of earnings. However, the expanded stats are sorted by age, not including earnings, and some of the top 200 golfers in earnings aren't even listed on the expanded pages. This explains most of the missing data.
