

Peer review instructions

Read the abstracts sent to you and provide a peer review for the authors. Write a formal text (not bullet points) based on the structure below. Each argument/point in your text should be supported by evidence and, ideally, a recommendation or suggestion to help the author improve the text.

- CONTENT (e.g. relevance, adequate coverage)
- ORGANISATION (e.g. overall structure, linking between ideas/sentences)
- STYLE (e.g. appropriacy for academic writing, appropriacy for an abstract)
- LANGUAGE (e.g. accuracy of grammar and vocabulary, spelling and punctuation)
- OVERALL IMPRESSION (e.g. general comments on the quality of the text)
