Technical analysis in Refintiv

- Trends:
 - up trend, down trend, flat trend (sideway)
 - up trend – higher highs, lower lows
 - down trend – lower highs, lower lows
 - identifiable on different time frames
- Support:
 - Support, or a support level, refers to the price level that an asset does not fall below for a period of time. An asset's support level is created by buyers entering the market whenever the asset dips to a lower price.
- Resistance:
 - Resistance is a price or price zone above the current market that contains the upside movement of an asset. Resistance is where selling interest appears over time, blocking further upside progress.
- Patterns:
 - rectangle, triangle, double top, double bottom, head and shoulders
- Moving Averages (MA 20, 50, 100, 200)
