Reminders

- Reminders – better control over Receivables
 - In Business Central a Reminder is similar to an Invoice. When you create a reminder, you must fill in a Reminder header and one or more Reminder lines.
 - You can fill in a header **manually** and have the program fill in the lines
- OR**
- you can have the program create reminders for all customers **automatically**.

How to calculate fee (we will use **Fixed** option)

Resource : Help MS Dynamics 365 Business Central

- a) Fee setup is not accessible
- b) Nobody uses Dynamic Variants – so it is the reason why it is not mentioned in this material

•Fixed

Fees are calculated based on the value of the Fee field on the row for the reminder level itself.

Automatic Reminder creation

- Open the Reminders window (Search window -> Reminder -> New icon)
- In the Reminders window, use the Create Reminder icon in the Actions area. The batch request panel appears, which creates a reminder

- Set a filter per customer and/or per Document type of Customer Ledger Entries if you want to create reminders for selected customers and/or for specified type of Customer Ledger Entries (such as for example Invoice)

Reminder dates example (WD=9/9/2026) ->MM/DD/YYYY

- VAT Date = 10/9
- Invoice issue date = 9/9
- Invoice due dates = 10/9
- Reminder Level 1 = 10/9+5D+1D=10/15 - > Issue (in this model DDC=0)
- Reminder Level 2= 10/15+1M+1M+1D=12/16/2026 - > Issue
- Reminder Level 3 = 12/16/2027+1M+1M+1D=2/17/2027 -> Issue

Green days -> Grace periods

Red days -> Due Date Calculation (DDC)

WD=Working Day

Why 1D ? -> next day

Issue -> jde o vydání upomínky

Automatic reminder creation

- On the Options tab, fill in the fields with the relevant information. If you need Help, then use the **Help** on each field
