

How do I record my feedback for Masaryk students?

1) Go to www.mailvu.com

The screenshot shows the mailVU website interface. At the top, there is a navigation bar with links for HOME, PRODUCTS & PRICING, ABOUT US, SIGN UP, and LOGIN. Below the navigation bar is the mailVU logo and the tagline "mail you can view". The main heading reads "Unleash the Power of Video with the Simplicity of Email." Below this, there is a "Try it FREE!" section with three steps: 1 Click, 2 Record, and 3 Send. To the right of these steps is a video recording interface. A red circle highlights the "Permitir" button in the "Configuración de Adobe Flash Player" dialog box. Below the recording interface, there are three account options: BASIC ACCOUNT, BUSINESS ACCOUNT (highlighted in blue), and BUSINESS PRO ACCOUNT. To the right of these options are links for Video Contest Service, Video API Service, and Private Label Service. At the bottom, there is a social media section with "Like Us! Follow Us!" and icons for Facebook, Google+, and Twitter.

2) Click on "Permitir" to allow your camera to record your reply.

3) Your camera will be turned on and you'll see yourself on the screen.
