

INTERNSHIP 2016 - at Solarwinds

solarwinds 

Are you an IT student who is looking for a job during summer in a software company where you can work with talented people and learn something new?

Are you ?

C# or Java enthusiast

?

or Python fan

?

or maybe you are more into
Automation Testing

?

If the answer to at least one question is

YES,

you will enjoy being part of our teams!

You'll get.

A three-months full-time summer internship contract in one of our software development teams. We can offer you friendly and informal working environment with flexible working hours, paid vacation and great experience with the engineering enterprise-class commercial software which you can proudly add to your CV.

Are you interested?

Send us your CV on czechjobs@solarwinds.com

You have a chance to work for
the Best Employer in the Czech Republic

(based on study "Best Employers Czech Republic" by Aon Hewitt)
