

LAB7 – Homework

Cisco Access Lists

<https://www.pluralsight.com/blog/it-ops/cisco-access-lists>

http://www.cisco.com/c/en/us/td/docs/switches/datacenter/nexus5000/sw/configuration/guide/cli/CLIConfigurationGuide/sec_ipacls.html

Reference questions:

1. Which two types of IP ACLs does Cisco support on its devices?
2. What is the difference between Standard and Extended ACLs?
3. Name at least four filtering options supported by IPv4 ACLs.
4. Is it possible to modify an ACL rule that has already been configured?
