## Academic Initiative Agreement

The purpose of this IBM Academic Initiative agreement ("Agreement") is to make available certain software, resources, cloud services for educational and non-commercial research only to qualifying students, employees or contractors with educational institutions, or learning providers. As an authorized representative, you accept the terms of this Agreement by completing the registration process at [ibm.biz/academic](#)

This Agreement and any IBM license agreements or any other agreements under which Eligible Resources are made available are the complete agreement between you and IBM regarding the use of those Eligible Resources. This Agreement replaces any prior oral or written communications between you and IBM regarding this offering. If there is a conflict between any of the terms of other applicable licenses and agreements and those of this Agreement, the terms of this Agreement prevail to the extent that the terms conflict.

### Definitions

**Institution:** an accredited publicly- or privately-funded educational institution approved by IBM to participate in this offering. Qualifications for approval are listed at the following web site: [ibm.biz/academic-initiative-faq](#)

**Registered Educator:** a member of an Institution's teaching or research staff who has registered, with the authorization of their Institution, to participate in this offering.

## Academic Initiatives Privacy Consent

### Scope

The IBM University Awards Privacy Statement applies to IBM Global University Programs Awards. The below statement should be considered in addition to the IBM Online Privacy Statement.

### Personal Information

1. We collect your personal information for the purpose of processing a nomination for a IBM Global University Programs award. Nominations candidates may also be contacted, using the information provided in connection with a job.
2. We may combine the information we collect from you with information obtained from other sources to help us improve its overall accuracy and completeness, and to help us better evaluate your nomination for an award.
3. In addition, we may also collect information relating to your use of our Web sites through the use of various technologies, including cookies.

### Uses

1. To evaluate, review and process your nomination for an award by us or by others involved in the awards process.
2. To contact you in connection with the evaluation, review or processing of an award.

# IBM Cloud

## What is IBM Cloud?

IBM Cloud is a full-stack cloud platform that spans public, private and hybrid environments. Build with a robust suite of advanced data and AI tools, and draw on deep industry expertise to help you on your journey to the cloud.

## What are the benefits of Cloud computing?

**Flexibility** - Users can scale services to fit their needs, customize applications and access cloud services from anywhere with an internet connection.

**Efficiency** - Enterprise users can get applications to market quickly, without worrying about underlying infrastructure costs or maintenance.

**Strategic value** - Cloud services give enterprises a competitive advantage by providing the most innovative technology available.

## The Garage practices

The Garage practices are IBM's approach to enable business, development, and operations to continuously design, deliver, and validate new solutions. The practices and workflows cover the entire product lifecycle from inception through capturing and responding to customer feedback and market changes.

The Garage practices are industry-recognized and represent a unique, holistic IBM point-of-view and describes the complete cloud transformation lifecycle with enhancements that support the enterprise at scale. The result is a method that is proven, aligned with industry best practices, and scalable to any size engagement.

## Subscription and feature codes

Subscription codes add platform and support credit for your purchased subscriptions. Feature codes unlock additional IBM Cloud capabilities for your account. Each code can be applied only once.

## EU Supported: Off

If you select the EU Supported option, the most common support issues will be limited to an IBM Cloud team located in the European Union.

## HIPAA Supported: Off

The US Health Insurance Portability and Accountability Act (HIPAA) requires that you enter into a contract to ensure safeguarding of protected health information (PHI).

Paste your feature code generated in Academic Initiative portal

Feature codes unlock additional IBM Cloud capabilities for your account.

### Apply a code

Enter a code to apply subscription credit or extra capabilities to your account.

You can apply each code to only one IBM Cloud account, and the code cannot be removed after it's applied.
