

Wargaming Prague launching internship program for Quality Assurance (QA) and 3D Art

Wargaming Forge is an educational program that wants to attract students and recent graduates towards a career at Wargaming. This program started at Wargaming to leverage their experience in the video game industry and pass on knowledge to a new generation of gaming professionals who will shape the future of games.

The QA Internship is a program that opens the door for talented specialists interested in the gaming software testing industry. Throughout the program, interns will get familiar with basic development stages, the role of QA in each of these stages, and get the necessary skills to start a career in QA in game development. Follow the link for more information and application:
