

Badminton Court Bookings L2

This I do not understand.
If prompt is denied the process continues? -0.5

These loops are probably unnecessary

Result: 11.5

Patrik Mažari, UCO 492762

This process displays Badminton Court Bookings.

Briefly, the process starts with a customer requesting a badminton court booking. In case their session (in the browser) is expired, it is handled using an exception. Next, the customer selects one or more time slots and continues to choose payment options. Upon selection, the payment is proceeded. In case of an failure or timeout, the payment and booking are cancelled. If everything goes well, the booking is confirmed, and the customer is informed about it accordingly.
