

# Install Quartus 21.1 EDK on Windows

## 1. Install Eclipse into the Quartus Installation

Follow the instructions in the EDK directory:

```
C:\intelFPGA_lite\21.1\nios2eds\bin\README
```

## 2. Install WSL 1 Ubuntu

From a Windows shell:

```
wsl --install # only necessary if WSL itself has not been installed  
wsl --set-default-version 1  
wsl --install -d Ubuntu-18.04 # other versions do not work!  
wsl --setdefault Ubuntu-18.04 # only necessary when multiple WSL distros are present  
wsl sudo apt-get update  
wsl sudo apt-get upgrade  
wsl sudo apt-get install wsl dos2unix make
```
