

## QUERYING RAVENDB

Example of Queries used during the demonstration

The screenshot shows the RavenDB Query Editor interface. The title bar says "Query". On the left, there's a "Syntax" icon with a red circle and a question mark. On the right, there are buttons for "Save..." (green), "Load Query" (with a magnifying glass icon), and "Settings" (with a gear icon). The query text is as follows:

```
1 from 'Products/ByCategory'
2 where Category == 'Seafood'
```

At the bottom, there is a hint: "Press Shift+F11 to enter full screen mode".

The screenshot shows the RavenDB Query Editor interface. The title bar says "Query". On the left, there's a "Syntax" icon with a red circle and a question mark. On the right, there are buttons for "Save..." (green), "Load Query" (with a magnifying glass icon), and "Settings" (with a gear icon). The query text is as follows:

```
1 from Products
2 where startsWith(Name, 'ch')
```

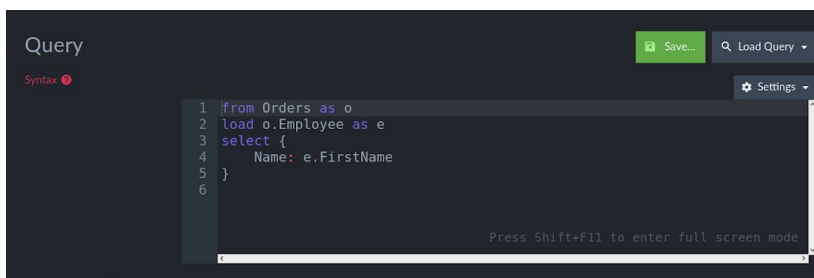

At the bottom, there is a hint: "Press Shift+F11 to enter full screen mode".

The screenshot shows the RavenDB Query Editor interface. The title bar says "Query". On the left, there's a "Syntax" icon with a red circle and a question mark. On the right, there are buttons for "Save..." (green), "Load Query" (with a magnifying glass icon), and "Settings" (with a gear icon). The query text is as follows:

```
1 from index 'Auto/Employees/ByFirstName'
```

At the bottom, there is a hint: "Press Shift+F11 to enter full screen mode".

The screenshot shows the RavenDB Query Editor interface. The title bar says "Query". On the left, there's a "Syntax" icon with a red circle and a question mark. On the right, there are buttons for "Save..." (green), "Load Query" (with a magnifying glass icon), and "Settings" (with a gear icon). The query text is as follows:

```
1 from Orders as o
2 load o.Employee as e
3 select {
4   Name: e.FirstName
5 }
6
```

At the bottom, there is a hint: "Press Shift+F11 to enter full screen mode".
