PATTERN

IS a regularity in the world, in human-made design, or in abstract ideas. As such, the elements of a pattern repeat in a predictable manner.

Tessellation is created when a shape is repeated over and over again covering a plane without any gaps or overlaps. Another word for a tessellation is a tiling.

Islamic Pattern

In Islamic culture very complex geometric patterns were created. We can admire them especially in architecture as tile walls and ceiling.

The abstract visual thinging comes also from the Islamic rule not to depict Allah. We do not see images of the real world in Islamic architecture.

The construction of the pattern is done with the straigh lines and circles.

Islamic Pattern

$d = 2r$
 $x^2 = 2r^2 - 2r^2 \cos 45^\circ$
 $y^2 = 2r^2$

دائرة شعاعها r محيطها $d = 2r$
 قانون كاسينوس: $x^2 = 2r^2 - 2r^2 \cos 45^\circ$
 مربع قضاة y $y^2 = 2r^2$

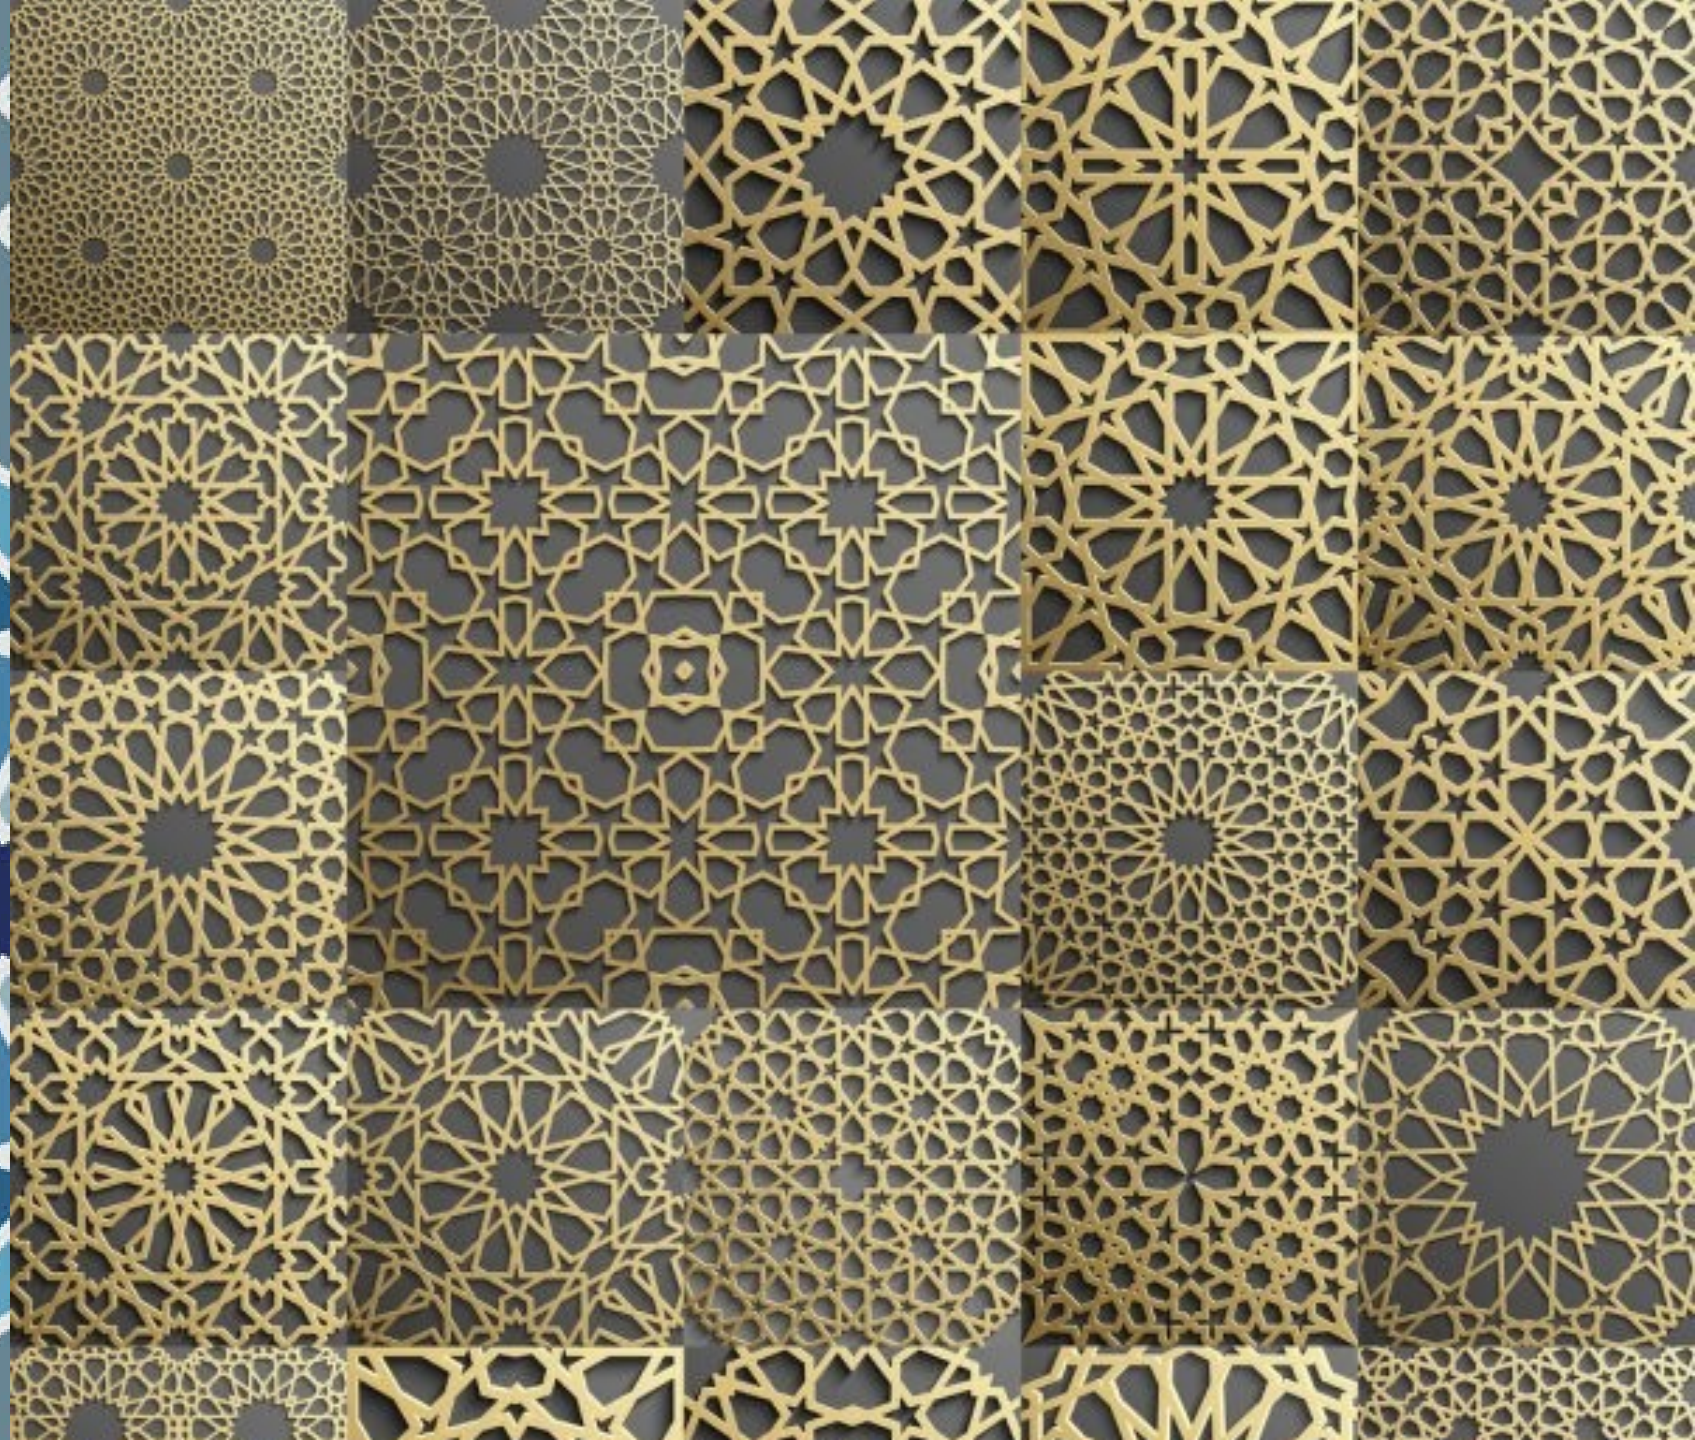

$\sum d_i = (n-2) \cdot 180$
 $\sum d_i = (8-2) \cdot 180 = 1080^\circ$
 $\Rightarrow L = S(1+\sqrt{2}) \Rightarrow S = L/(1+\sqrt{2})$
