

# PV198 - UART II

## One-chip Controllers

**Daniel Dlhopolček, Marek Vrbka, Jan Koniarik, Oldřich Pecák, Tomáš Rohlínek, Ján Labuda, Jan Horáček, Matúš Škvarla**

Faculty of Informatics, Masaryk University

10/2023

# Intro

- Switch the branch to *Week\_10*!
- Deadline for HW from week 9 is extended by 1 week. Ask your teach for feedback!
- No homework for week 10.

# Goal

- No writing of embedded code today.
- You will get a project representin the modem.
- Compile it, flash it.
- The project README.md contains more details.
- The general idea: write a python script that uses the modem.
