

# THE FOREST NEVER SLEEPS

To shoot ,still life'  
In the pumping heart  
Of all living things  
To say she is still  
And all the things she keeps

Daring  
I say

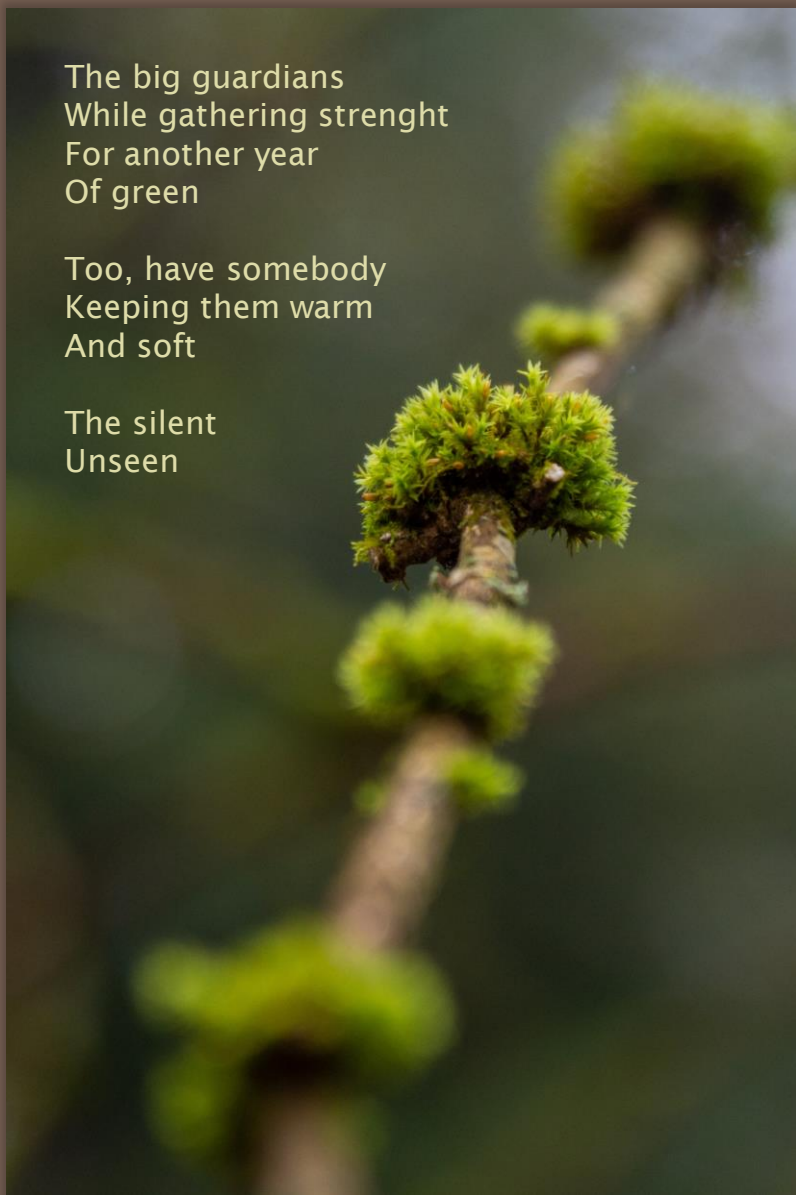

For the forest never sleeps

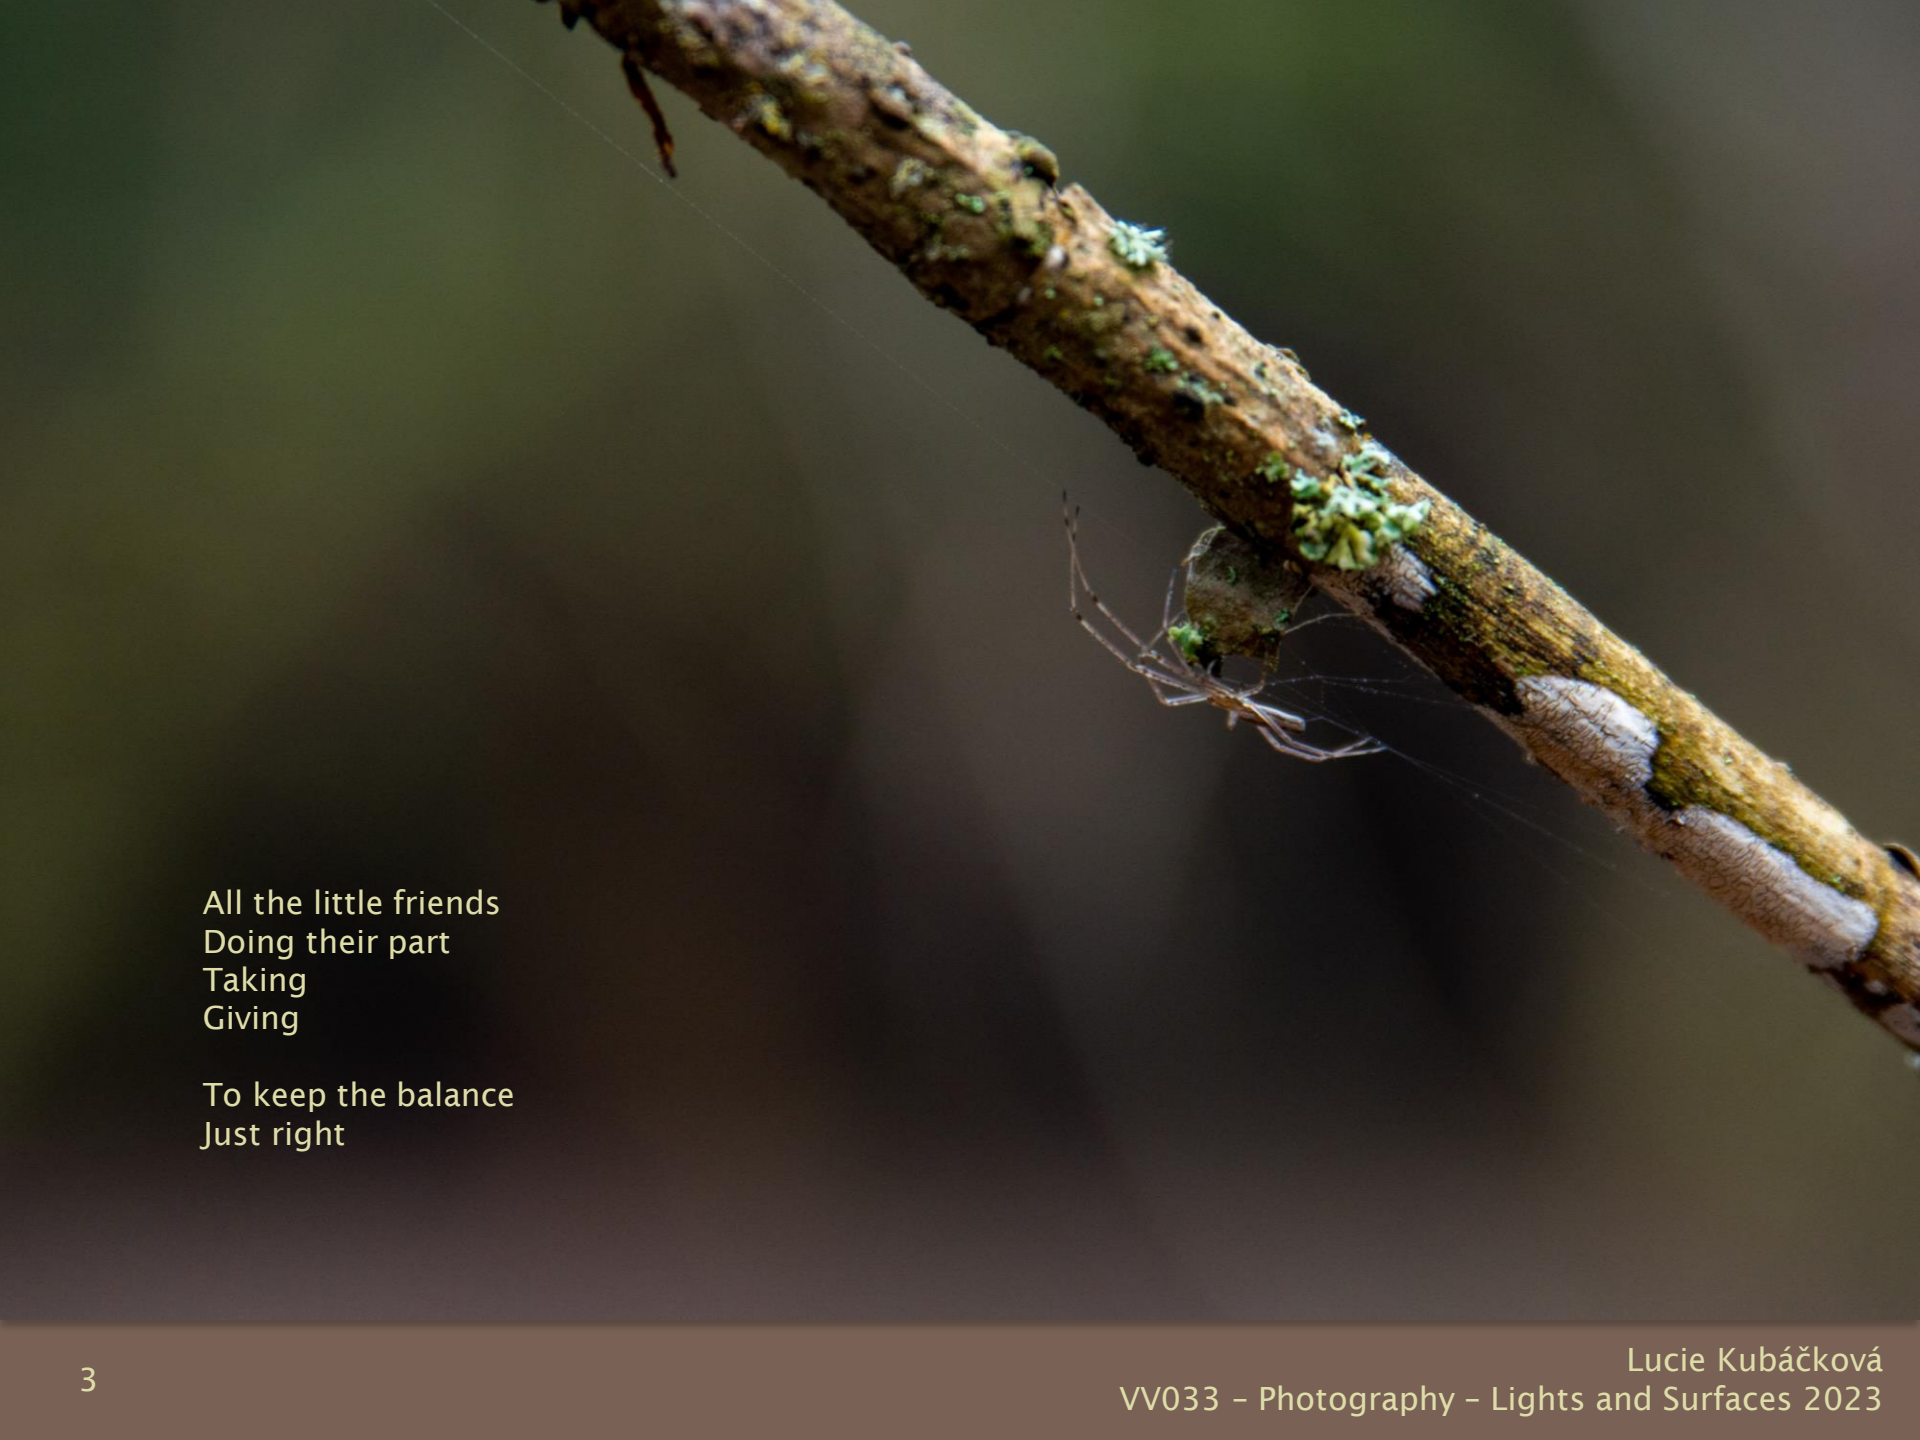

The big guardians  
While gathering strenght  
For another year  
Of green

Too, have somebody  
Keeping them warm  
And soft

The silent  
Unseen

All the little friends  
Doing their part  
Taking  
Giving

To keep the balance  
Just right

Wake up  
They are waiting  
For you
