What if we told you there's 50+ of them in different parts of Brno and also outside of it? As far as we know, the author behind them is unknown, but we can enjoy the sight of them nonetheless.

Our city guide contains 14 chosen snails as well as some tips on activities near them with walking distance in km. Doesn't matter if you prefer to sit down for a coffee or maybe a meal, to go for a walk or to delve into history. We've got you covered.

We want to encourage you to look for these snails all over Brno, not only the ones we've chosen, but also others on your own. Feel free to hunt down as many as you can, add color to snails on the map when you've found them and even add more snails if you find any.
