

First Aid

Process how to give First Aid

Mgr. Zdeňka Kubíková
Bc. Barbora Zuchová and others

Just before you start to deal with casualty – think about!

Accident

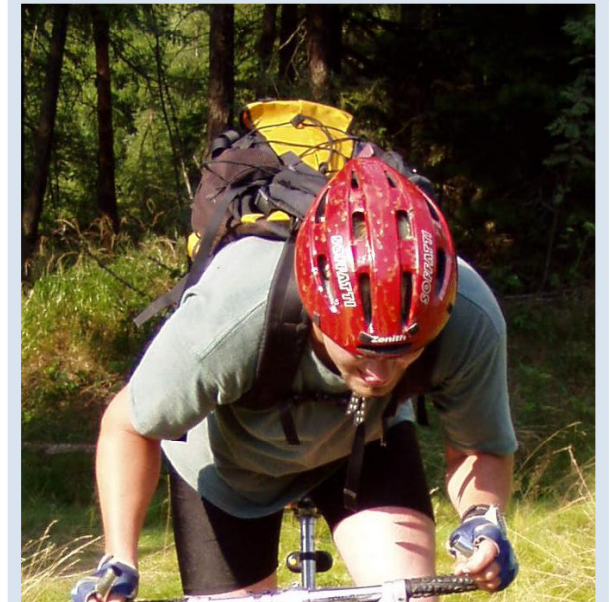

- how it happened?

ACCIDENT MECHANISM

- what can I see?
- what can other people say to me?

Non – accident case

- what I know about the casualty's status?
- what can I see?
- what can other people say to me?

Process on site of accident

- 1. Safety for me and for casualty**
- 2. Bleeding** if it is profuse, it has priority!!!
- 3. Consciousness**
 - **Responsive** – examine
 - **Unresponsive** – **casualty is breathing** – examine
 - **Unresponsive** – **casualty is not breathing** – **CPR**
- 4. Dialling of Emergency Medical Service 155**
- 5. Care of casualty until EMS arrives!!!**

**Care of casualty
until EMS
arrives**
