- Adding animations

- Select the clip that you want to add a transition to
- Pick your transition

■ Choosing Visual Effects...

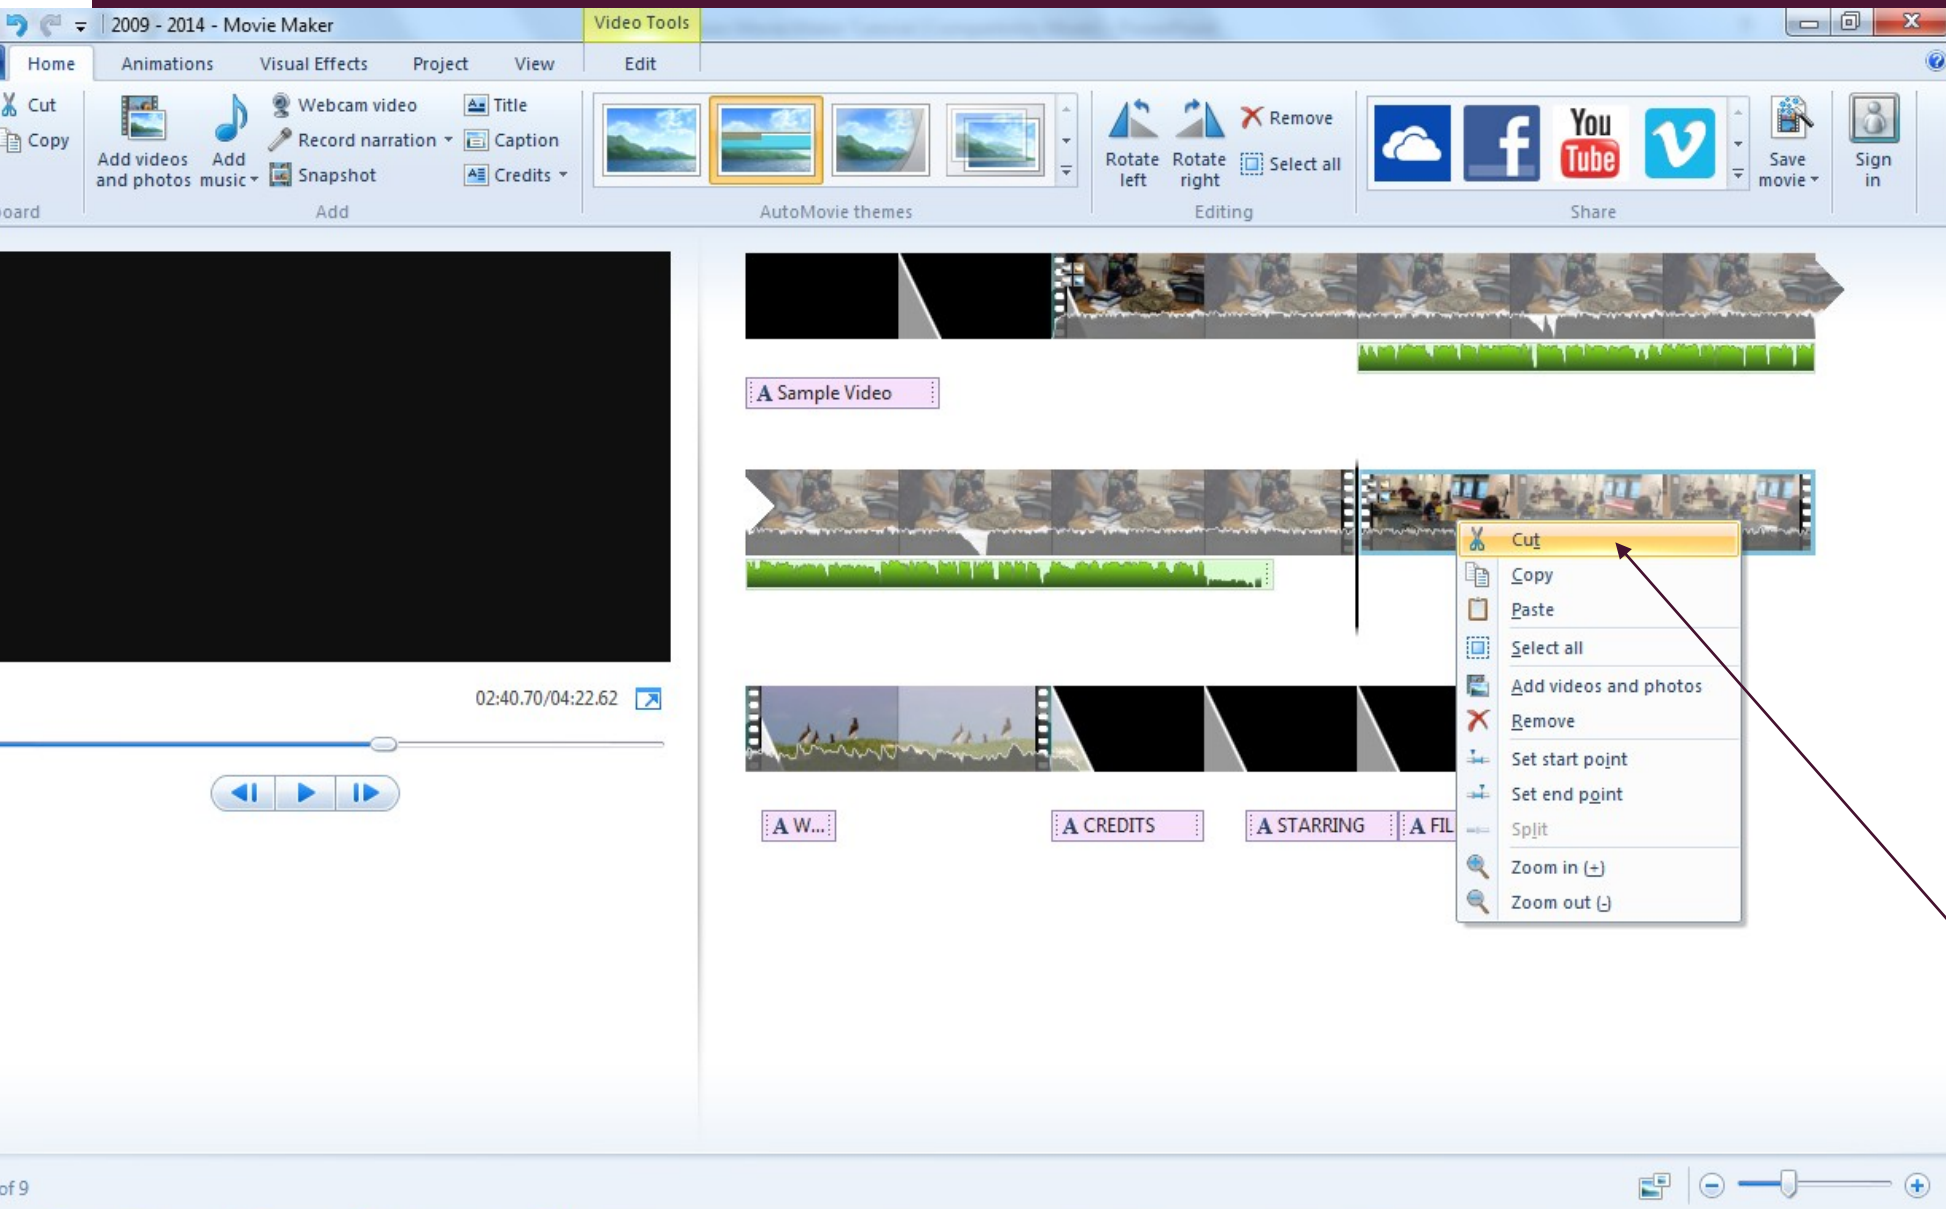

- Select a clip
- Choose an effect

- You can “apply to all”

- To split clips, first choose where you want to split the clips
- Then right click and select “split”

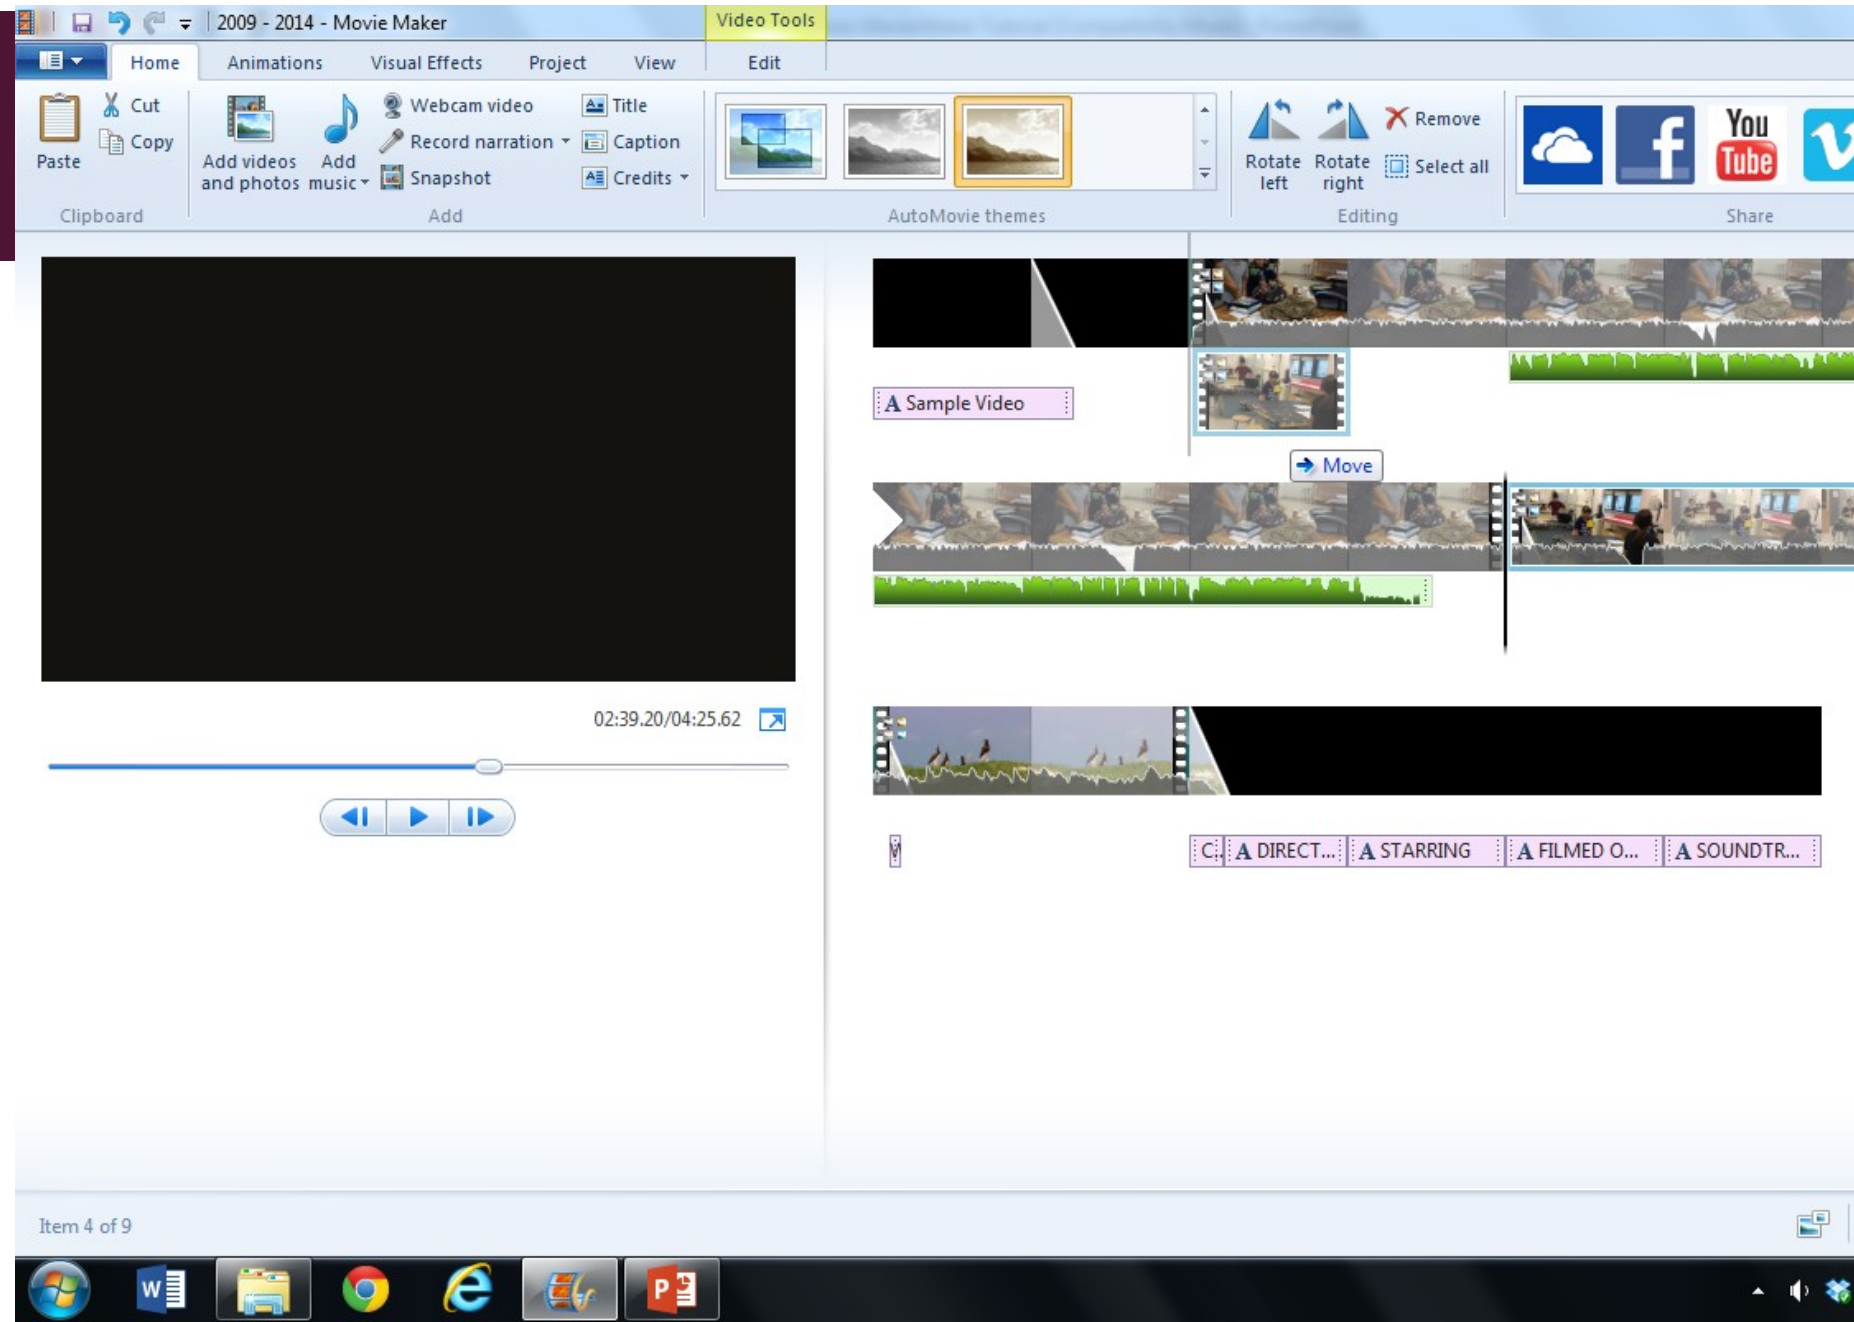

- Splitting clips is great for cutting out parts of clips...

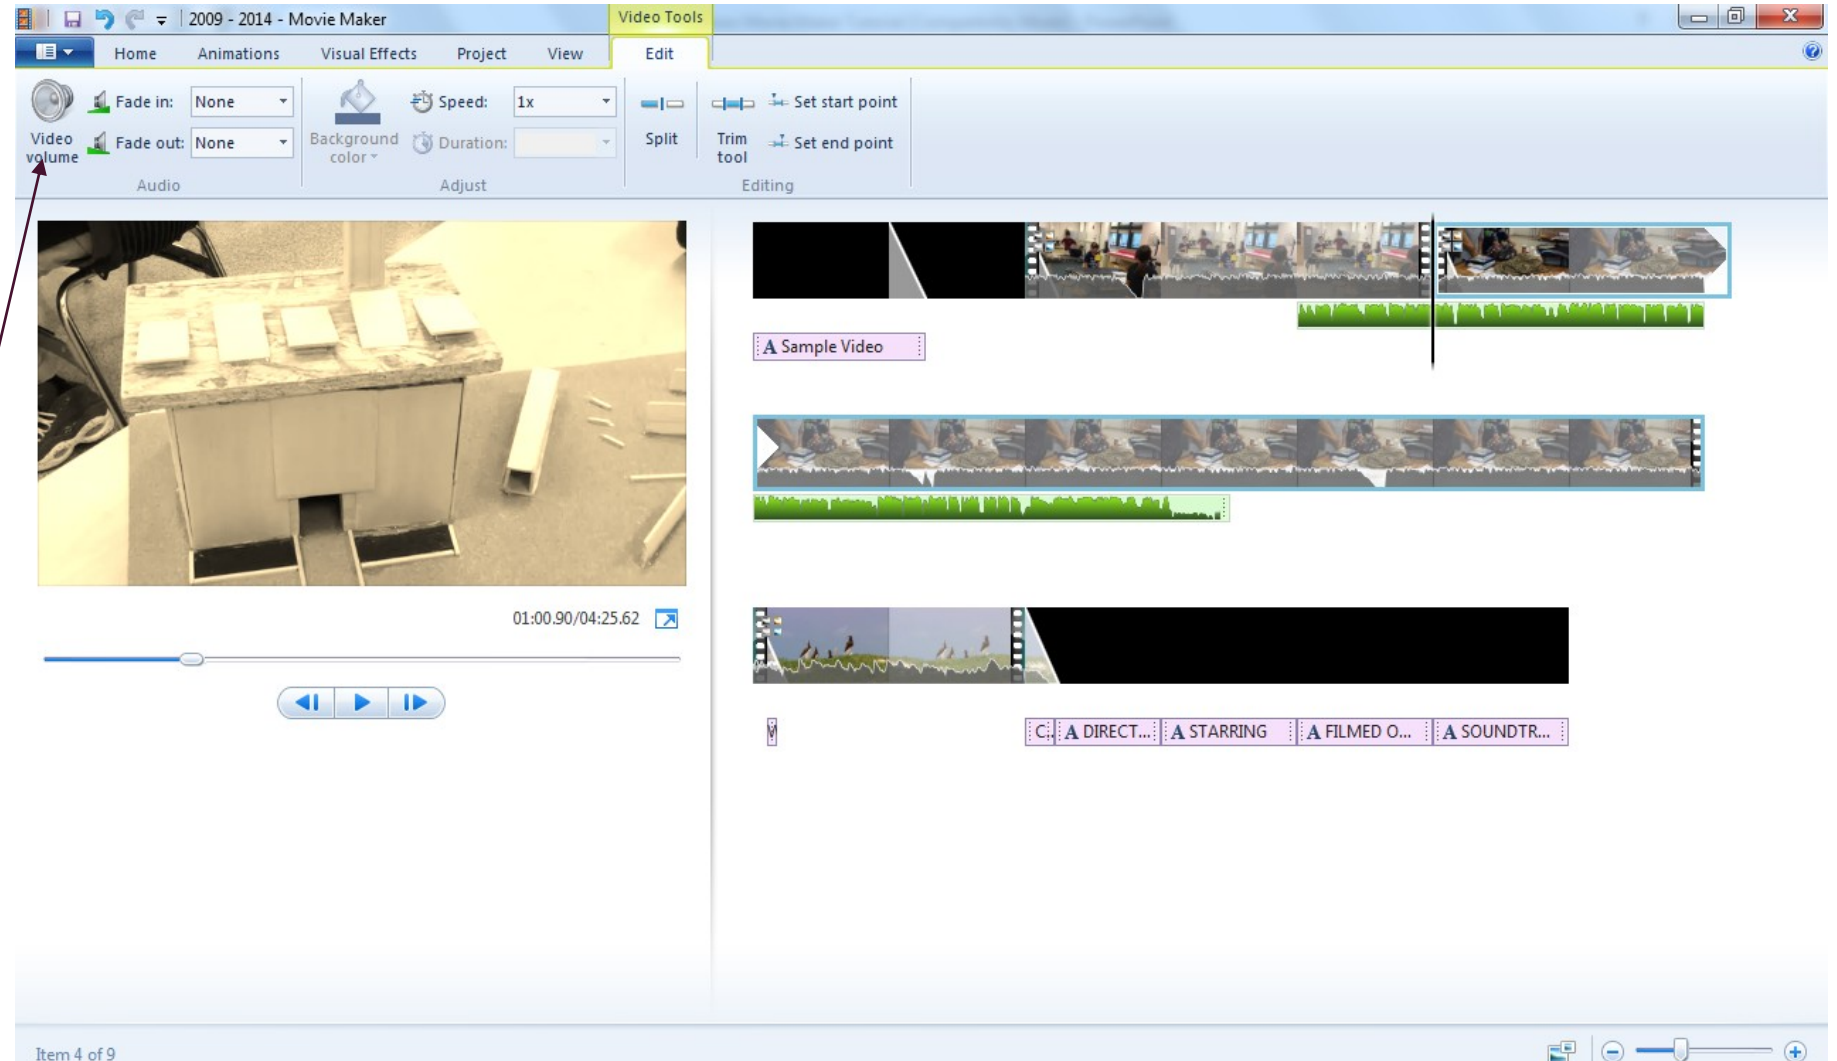

- To do so, right click and select “cut”

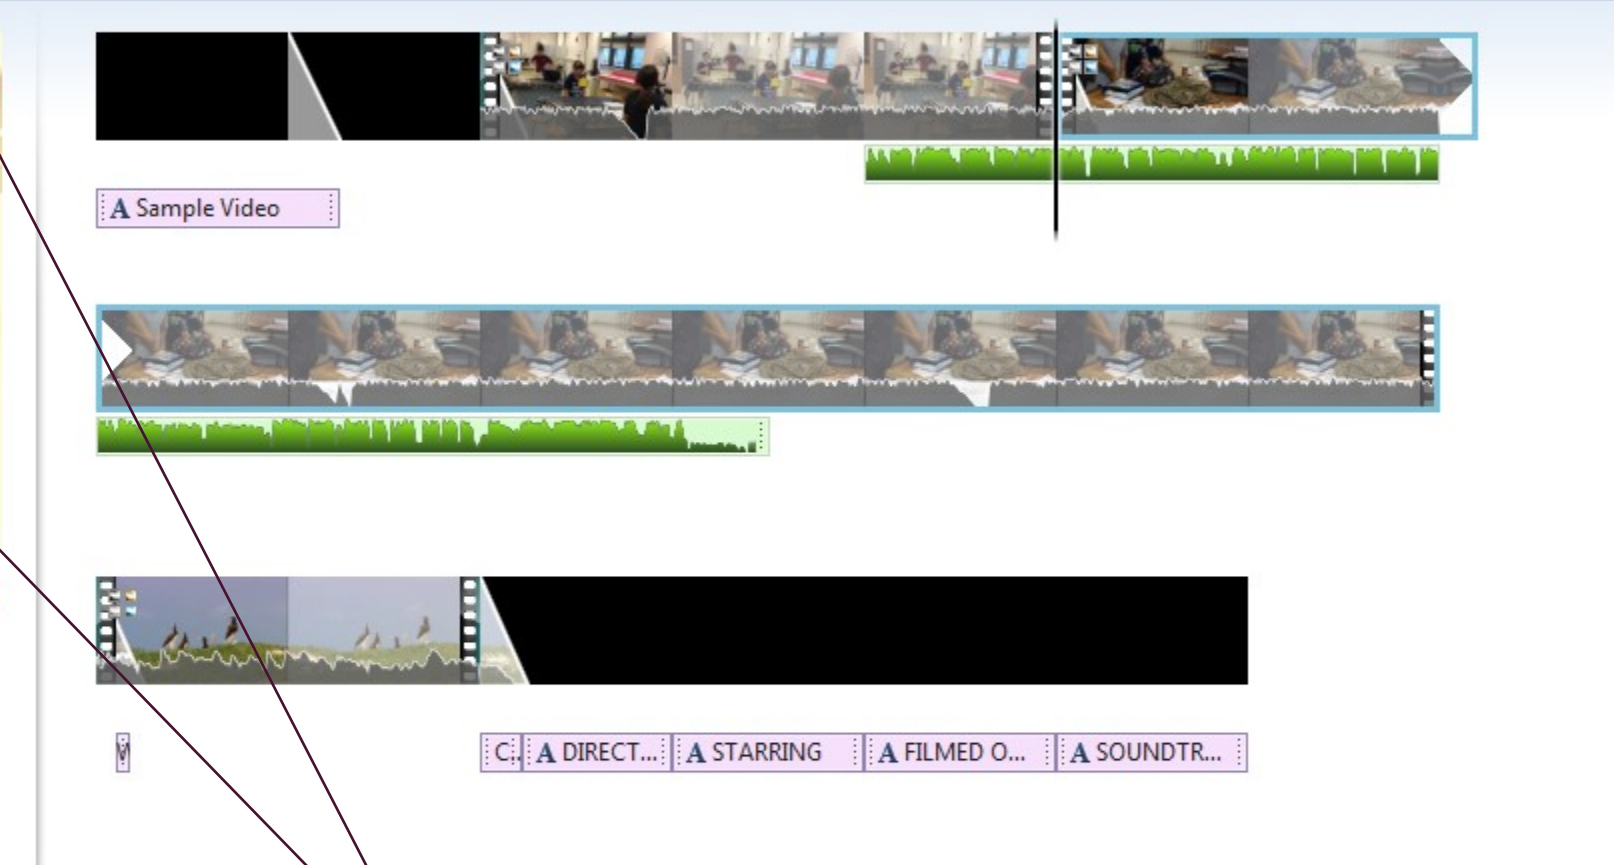

- To move clips around – click the clip and drag and drop!

TO TURN OFF SOUND ON A CLIP...

- Double click the clip
- Select “video volume”

Adjust to your liking

You can also have the clip fade in/out or speed up/slow down

HOW TO SAVE

- Save an unfinished project by clicking the file menu and choosing “save project”

SAVING AS A MOVIE

- Select “save movie”
- Choose “for computer”
 - Can save to a DVD if you bring one
- Save final movie to one of Mrs. Beamer’s flash drives

SOME OTHER STUFF...

- There are many other ways to edit your film clips – explore it!
- “Play” around a bit with the program to become comfortable
- SAVE every couple of minutes – better save than sorry
- Raise your hand if you need help!!
