

ACADEMIC WRITING TEMPLATE

INTRODUCTION

The present study focused on the examination of _____ .
This paper presents a novel approach _____ .
The purpose of this study is to identify relationships between _____ .
This study examined _____ with respect to _____ .
The program was designed to address the issue of _____ .
This paper challenges the argument that _____ .
.....
.....

METHODS

Two major research strategies are used: _____ .
Data have been collected from _____ .
A detailed comparison of _____ was performed.
The subjects were tested using a method of _____ .
The subjects provided ratings of _____ .
To determine reliability of the data we _____ .
.....
.....

RESULTS AND CONCLUSIONS

The experimental group showed a significant decrease in the level of _____ .
We assessed the efficacy of an intervention programme based on _____ .
The results indicated that various discrepancies existed between _____ .
The findings have significant implications for _____ .
The importance of _____ is emphasised.
This research will provide valuable information regarding _____ and address the role of _____ .
A new approach to _____ is proposed _____ .
The study provides further evidence of a link between _____ and _____ .
.....
.....

DISCUSSION

Limitations and future recommendations are addressed.
The results may direct future research on _____ .
The results of this analysis can be used to find _____ .
The findings may be useful in _____ .
The research highlighted the need for _____ .
Further studies are recommended to examine _____ .
The study is limited by (a small number of participants) _____ .
.....
.....

ACKNOWLEDGEMENTS

This paper was supported by grants from _____ .
We thank _____ for funding.
.....
