MENDELEY

MENDELEY (Reference Manager)

10

- Mendeley has two synchronized interfaces:
 - Desktop software: Software and documents manager.
 - Web Application: Provides a social network

MENDELEY (Reference Manager)

11

- **Key characteristics** of Mendeley:
 - Content discovery & access
 - Knowledge management & collaboration
 - Publication & dissemination

MENDELEY (Reference Manager)

12

- On April 9th 2013, Elsevier acquired Mendeley

ELSEVIER

Get Mendeley | What is Mendeley? | Papers | Groups | Papers ▾ | Search... 🔍

It's time to change the way we do research.

Mendeley is a free **reference manager** and **academic social network** that can help you organize your research, collaborate with others online, and discover the latest research.

- Automatically **generate bibliographies**
- **Collaborate easily** with other researchers online
- Easily **import papers** from other research software
- **Find relevant papers** based on what you're reading
- Access your papers from **anywhere online**
- Read papers on the go, with our new **iPhone app**
- **View more features...**

**Narrative Health Communication and Behavior Change:
The Influence of Exemplars in the News on Intention to
Quit Smoking.**

Authors: H. Kim, C. Bigman, A. Leader et al.

Journal: *The Journal of communication*

Year: 2012

Volume: 62

Issue: 3

Pages: 473-492

Abstract:

This study investigated psychological mechanisms underlying the effect of narrative health communication on behavioral intention. Specifically, the study examined how exemplification in news about successful smoking cessation affects recipients' narrative engagement, thereby changing their intention to quit smoking. Nationally representative samples of U.S. adult smokers participated in 2 experiments. The results from the 2 experiments consistently showed that smokers reading a news article with an exemplar experienced greater narrative engagement compared to those reading an article without an exemplar. Those who reported more engagement were in turn more likely to report greater smoking cessation intentions.

Type: Journal Article

Reducing obesity and related chronic disease risk in children and youth: a synthesis of evidence with 'best practice' recommendations.

Authors: M. Flynn, D. McNeil, B. Maloff et al.

Journal: *Obesity reviews : an official journal of the International Association for the Study of Obesity*

Year: 2006

Volume: 7 Suppl 1

Issue:

Pages: 7-66

Abstract:
Childhood obesity is a global epidemic and rising trends in overweight and obesity are apparent in both developed and developing countries. Available estimates for the period between the 1980s and 1990s show the prevalence of overweight and obesity in children increased by a magnitude of two to five times in developed countries (e.g. from 11% to over 30% in boys in Canada), and up to almost four times in developing countries (e.g. from 4% to 14% in Brazil). The goal of this synthesis research study was to develop best practice recommendations based on a systematic approach to finding, selecting and critically appraising programmes addressing prevention and treatment of childhood obesity and related risk of chronic diseases. An international panel of experts in areas of relevance to obesity provided guidance for the study. This synthesis research encompassed a comprehensive search of medical/academic and grey literature and the Internet covering the years 1982-2003. The appraisal approach developed to identify best practice was unique, in that it considered not only methodological rigour, but also population health, immigrant health and programme development/evaluation perspectives in the assessment. Scores were generated based on pre-determined criteria with programmes scoring in the top tertile of the scoring range in any one of the four appraisal categories included for further examination. The synthesis process included identification of gaps and an analysis and summary of programme development and programme effectiveness to enable conclusions to be drawn and recommendations to be made. The results from the library database searches (13,158 hits)...

Mortality rates in patients with anorexia nervosa and other eating disorders. A meta-analysis of 36 studies.

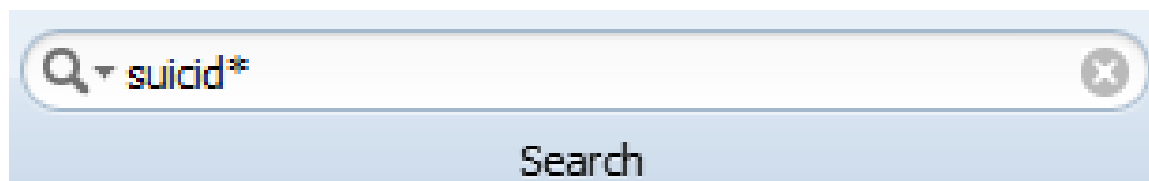

Jon Arcelus; AJ Mitchell; J Wales; S ... - 2011 - Archives of General Psychiatry

...AN who died had committed **suicide**. Conclusions: Individuals with eating disorders ...

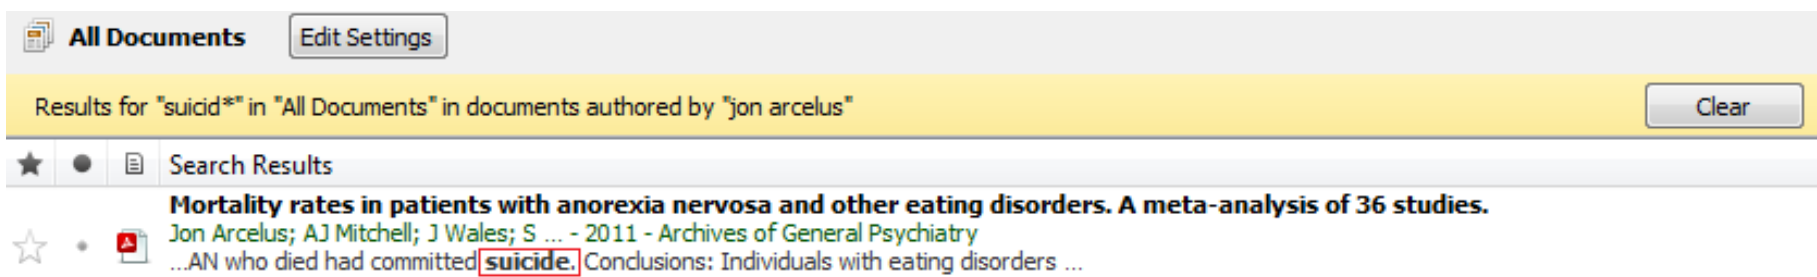

MENDELEY: Edit (Menu bar)

59

- **Searching:** You may use **truncation** (*)

A search bar with a magnifying glass icon on the left and a close button (X) on the right. The text 'suicid*' is entered into the search field. Below the search bar is a button labeled 'Search'.

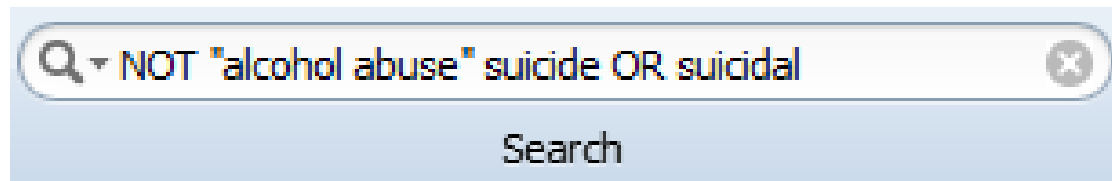

A screenshot of the Mendeley search results interface. At the top, there is a tab labeled 'All Documents' and a button labeled 'Edit Settings'. Below this is a yellow banner with the text 'Results for "suicid*" in "All Documents" in documents authored by "jon arcelus"' and a 'Clear' button on the right. Underneath the banner is a section titled 'Search Results' with a star icon, a dot, and a document icon. The first result is titled 'Mortality rates in patients with anorexia nervosa and other eating disorders. A meta-analysis of 36 studies.' by Jon Arcelus; AJ Mitchell; J Wales; S ... - 2011 - Archives of General Psychiatry. The snippet below the title reads: '...AN who died had committed **suicide**. Conclusions: Individuals with eating disorders ...' The word 'suicide' is highlighted with a red box.

NOTE: If you use truncation, the word won't be highlighted but bolded

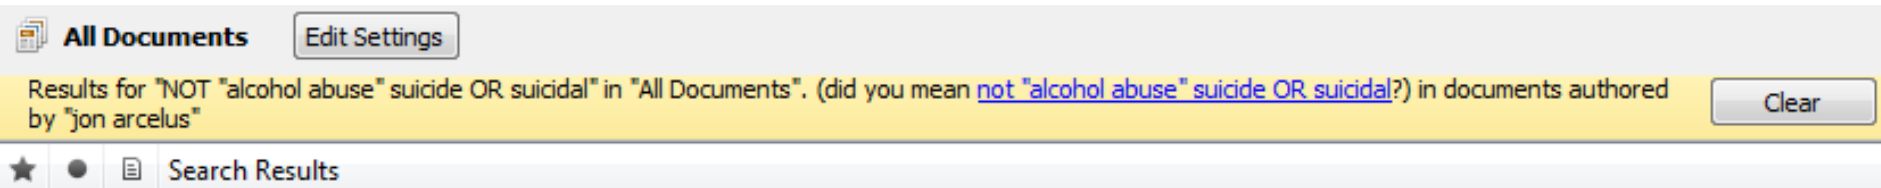

MENDELEY: Edit (Menu bar)

60

- Searching: You may use **Boolean operators** (AND, OR, NOT)

A search bar with a magnifying glass icon on the left and a close button (X) on the right. The text inside the search bar is "NOT 'alcohol abuse' suicide OR suicidal". Below the search bar is a blue button labeled "Search".

The interface shows a search results page. At the top left, there is a document icon, the text "All Documents", and a button labeled "Edit Settings". Below this is a yellow banner with the text: "Results for 'NOT 'alcohol abuse' suicide OR suicidal' in 'All Documents'. (did you mean [not 'alcohol abuse' suicide OR suicidal?](#)) in documents authored by 'jon arcelus'". To the right of the banner is a "Clear" button. At the bottom left, there are icons for a star, a circle, and a document, followed by the text "Search Results".

NOTE: Search strategy is “read” from left to right

Advanced Search: Improve your search using the **filters** on the left panel.

The screenshot displays the Mendeley Desktop application interface. At the top, a search bar contains the query "suicide OR suicidal" and is highlighted with a red box. Below the search bar, the main window shows search results for "suicide OR suicidal" in documents tagged "meta-analysis". The results list several articles, with the top one being "A comprehensive meta-analysis of the risk of suicide in eating disorders." The left sidebar shows the "My Library" section with "All Documents" selected and highlighted with a red box. Below it, the "Filter by My Tags" section is also highlighted with a red box, showing a list of tags including "MEQ", "Meta-Analysis", "Metabolic Syndrome", "Metabolically Healthy", "Metabolism", "Methodology", "Mexico", "MFES", and "Middle East". The right sidebar shows the details of the selected article, including the title "Mortality rates in patients with anorexia nervosa and other eating disorders. A meta-analysis of 36 studies.", authors "J. Arcelus, A. Mitchell, J. Wales et al.", and journal "Archives of General Psychiatry".

□ Give this group more details:

The screenshot shows the 'Edit' menu for a Mendeley group named 'Test', which is owned by 'you'. The menu is divided into several sections: 'Details', 'Categorize this group', and 'Membership'. The 'Details' section includes a 'Hide Settings' button and a link to 'Edit this group's name, description, weblink and assign a group image'. The 'Categorize this group' section includes a link to 'Assign tags and academic disciplines to this group'. The 'Membership' section indicates that the group is a 'Public Group' and provides two options: 'Open' (selected) and 'Invite-only'. The 'Open' option is described as 'Public can contribute; good for crowd-sourcing reading lists', while the 'Invite-only' option is described as 'Public can follow only; good for sharing references or reading lists'.

- The number of **groups** is growing everyday

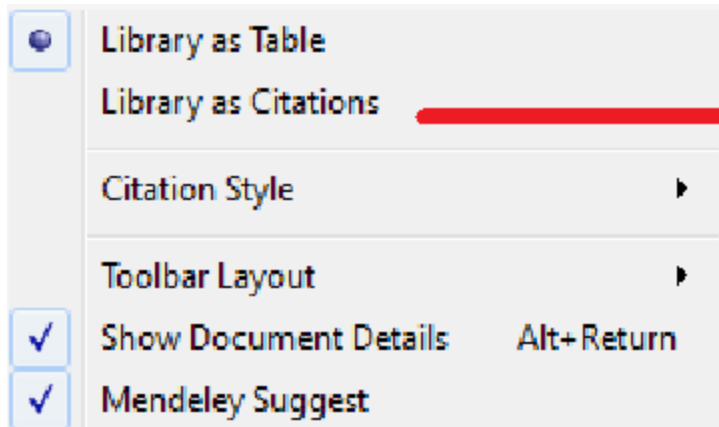

The screenshot shows the Mendeley website interface. At the top left is the Mendeley logo, a red stylized figure with four circular nodes. To its right is the word "MENDELEY" in a red serif font. In the top right corner, the text "Welcome b..." is partially visible. Below the logo and name is a horizontal menu bar with five buttons: "Dashboard", "My Library", "Papers", "Groups", and "People". The "Groups" button is highlighted with a light blue background. Below the menu bar, the heading "Groups" is displayed in a large, dark serif font. Underneath the heading, the text "In this catalog" is followed by the number "85,346" and the words "public groups". The number "85,346" is enclosed in a red rectangular box. At the bottom of the screenshot is a search bar with the placeholder text "Search groups..." and a magnifying glass icon on the right. Below the search bar, the text "eg: Social networks" is displayed.
