Abstract

TestLink, the Test Collection at ETS

Combine search terms, such as searching for a test by a particular author, click on the Advanced Search Tab.

Select a field from the drop-down menu and then enter the text for which you want to search.

ERIC descriptors are used to create subject terms.

The symbol for truncation is: *. This symbol provides all possible suffixes and word roots/endings when added to any shortened form of a word. Truncation marks are required.

Example Search: exam*

Results: all records with a keyword beginning in exam such as exam, examine, examination.

To Search for a Downloadable Test

- Change the dropdown box to **Order Information**
- Type **downloadable** in the search box
- Click search
- Use the Advanced Search tab to combine the search for a downloadable test with another search parameter.

http://1340.sydneyplus.com/ETS_Test_Collection/Portal.aspx

Introduction

The UT Arlington Library does not have a test bank due to copyright and financial constraints. We do, however, make an attempt to gather information which will allow library users to identify and obtain their own copies of previously used research instruments. We acquire test collections which contain non-copyrighted materials. We cannot vouch for validity, reliability, or previous or subsequent use of any research test, measure, or research method.

An entry noted [directory] means the item list tests which have been used in research. It does not necessarily contain the actual test or measurement it may include descriptive information only.

An entry noted [tests], includes the tests under discussion in the text.

An entry noted [directory; some tests], the item has information about tests under discussion and includes copies of some of these.

An entry noted [index] does not include tests unless specifically noted.

□ Indexes and Abstracts databases

Indexes and Abstracts

CUMULATIVE INDEX TO NURSING AND ALLIED HEALTH LITERATURE (CINAHL).

Glendale, CA: Glendale Adventist Medical Center, 1956- . Provides author and subject indexing of the core nursing journal literature with some popular literature of interest to nurses. [directory; does include a few fulltext tests] [Also available on through as CINAHL database; name of test is one of the searchable fields. For off campus connections, must be UTA student, faculty or staff; ID #.]

CENTRAL LIBRARY/INDEXES AND ABSTRACTS RT 1 .C85

[CINAHL \(Nursing and Allied Health Database\)](#)

CUMULATIVE INDEX TO TESTS IN MICROFICHE, 1975-1987.

John C Hepner, editor. Princeton, NJ: ETS Test Collection, Educational Testing Service, c1988. Based on the original annotated indexes accompanying microfiche sets A through M (summer 1975 through December 1987). Includes abstracts. [index to microfiche collection of test copies housed in Central Library]

CENTRAL LIBRARY/MICROFICHE/BASEMENT LB 3051 .T44 INDEX

CURRENT INDEX TO JOURNALS IN EDUCATION.

Phoenix: Oryx Press, 1969- . Main section offers brief abstracts of articles arranged by document accession number under 16 broad categories. Indexes provide access by subject or author, and a third lists the contents of each journal issue indexed. Uses specific descriptors instead of conventional subject headings. [index; does not include tests] (Also available on FirstSearch Core Databases as a part of the ERIC database; name of test is often searchable. Must be UTA student, faculty or staff; password required. Ask at UTA Library Reference Desk.)

Entire
Google

1. **Limit to Tests & Measures Pages:** do UTA Web Site search, include "compilation volumes" as one of your keywords.
(Ex: perinatal grief "compilation volumes")
2. Search for author last names, no first names included.
(Ex: John W. Brown, Jr. listed as Brown Jr JW)
3. For "subject" type searching, always consider searching with other synonyms (Ex: learning OR teaching OR educating)

This resource is designed as an aid in locating known assessment instruments. As such, entries include only instrument title, author, date, & pages located in a larger compilation. We assume a proper literature review has been done to identify the appropriate tools.

Review Samples

SAMPLE REVIEWS FROM THE MENTAL MEASUREMENTS YEARBOOK

Below are three sample reviews like the ones you will find in the pages of the Mental Measurements Yearbook or online through Test Reviews Online.

Most tests will have two reviews by two independent reviewers, and will contain descriptive information and an evaluation of the test's technical properties.

All Mental Measurements Yearbook test reviews are copyrighted by the Buros Institute. Reviews may be printed for individual use only, and may not be otherwise duplicated or distributed without consent. Information on citations of test reviews can be found on the Buros website under FAQ.

Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults.

Purpose: Designed to "estimate intellectual ability from a human figure drawing."

Population: Ages 4-0 to 89-11.

Publication Date: 2004.

Acronym: DAP: IQ.

Score: DAP IQ.

Administration: Individual or group.

Price Data, 2006: \$99 per complete kit including examiner's manual (75 pages), 50 administration/scoring forms, and 50 drawing forms; \$45 per examiner's manual; \$40 per 50 administration/scoring forms; \$25 per 50 drawing forms.

Time: (8-15) minutes.

Authors: Cecil R. Reynolds and Julia A. Hickman.

Publisher: PRO-ED.

Review of the Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults by JONATHAN SANDOVAL, Professor of Education, University of the Pacific, Stockton, CA:

DESCRIPTION. The Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults (DAP: IQ) consists of the evaluation of 23 features of a human figure drawing produced in response to the instruction "draw a picture of yourself" (examiner's manual, p. 5). Examinees are asked to draw a full figure from a frontal view. Each of the drawing features (e.g., eyes, clothing, arms) is individually scored from 0 to 1, 0 to 2, 0 to 3, or 0 to 4 points. A maximum score of 49 points is possible. Raw scores may be converted into a single standard score, an IQ with a mean of 100 and standard deviation of 15, a T score, a z score, or a stanine. The manual also provides percentile ranks, age equivalents,
