Abstract

TestLink, the Test Collection at ETS

Combine search terms, such as searching for a test by a particular author, click on the Advanced Search Tab.

Select a field from the drop-down menu and then enter the text for which you want to search.

ERIC descriptors are used to create subject terms.

The symbol for truncation is: *. This symbol provides all possible suffixes and word roots/endings when added to any shortened form of a word. Truncation marks are required.

Example Search: exam*

Results: all records with a keyword beginning in exam such as exam, examine, examination.

To Search for a Downloadable Test

- Change the dropdown box to **Order Information**
- Type **downloadable** in the search box
- Click search
- Use the Advanced Search tab to combine the search for a downloadable test with another search parameter.

http://1340.sydneyplus.com/ETS_SydneyEnterprise_External/Portal/TestCollection.aspx

** TMdb **

*Tests and Measures in the Social Sciences: Tests Available in Compilation Volumes
Compilation Volumes*

These pages are provided for information purposes only.

Due to US copyright laws and my professional position, I am unable to provide copies of these instruments.

To obtain any of these resources, you may:

1. Check the library closest to you to determine if it has the source volume;
2. Contact YOUR library Interlibrary Loan department or other services available at your institution.

The *TMdb* is an aid in locating known assessment instruments. Entries include only instrument title, author, date, & pages located in a larger compilation.

We assume a proper literature review has been done to identify the appropriate tools.

Quick Search using [RefWorks' RefShare Interface](#) [no username/password needed]

or

Quick Search using [UT Arlington \(host\) web site](#) [powered by Google]

1. Limit to *TMdb* Pages: search [UTA's Web Site](#) and include *TMdb* as one of your keywords. (Ex: perinatal grief *TMdb*)
2. Search for author last names, no first names included. (Ex: John W. Brown, Jr. listed as Brown Jr JW)
3. For "subject" type searching, always consider searching with other synonyms (Ex: learning OR teaching OR educating)

Once a contents page has been identified, use your browser's toolbar to EDIT, then FIND a keyword on the page.

The RefShare full records has equivalent information.

Consider also checking [The Medical Algorithm Project](#), a web-based collection of over 5000 medical algorithms, with documentation, on-line spreadsheets, and on-line calculators.

Annotated with Mental Measurement Year Book (MMYB) notes starting 3/7/2005. Only those items which are identified as having a review in the MMYB are noted with the appropriate edition. It is possible that some Items not identified as being reviewed may still have a MMYB review.

Review Samples

SAMPLE REVIEWS FROM THE MENTAL MEASUREMENTS YEARBOOK

Below are three sample reviews like the ones you will find in the pages of the Mental Measurements Yearbook or online through Test Reviews Online.

Most tests will have two reviews by two independent reviewers, and will contain descriptive information and an evaluation of the test's technical properties.

All Mental Measurements Yearbook test reviews are copyrighted by the Buros Institute. Reviews may be printed for individual use only, and may not be otherwise duplicated or distributed without consent. Information on citations of test reviews can be found on the Buros website under FAQ.

Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults.

Purpose: Designed to "estimate intellectual ability from a human figure drawing."

Population: Ages 4-0 to 89-11.

Publication Date: 2004.

Acronym: DAP: IQ.

Score: DAP IQ.

Administration: Individual or group.

Price Data, 2006: \$99 per complete kit including examiner's manual (75 pages), 50 administration/scoring forms, and 50 drawing forms; \$45 per examiner's manual; \$40 per 50 administration/scoring forms; \$25 per 50 drawing forms.

Time: (8-15) minutes.

Authors: Cecil R. Reynolds and Julia A. Hickman.

Publisher: PRO-ED.

Review of the Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults by JONATHAN SANDOVAL, Professor of Education, University of the Pacific, Stockton, CA:

DESCRIPTION. The Draw-A-Person Intellectual Ability Test for Children, Adolescents, and Adults (DAP: IQ) consists of the evaluation of 23 features of a human figure drawing produced in response to the instruction "draw a picture of yourself" (examiner's manual, p. 5). Examinees are asked to draw a full figure from a frontal view. Each of the drawing features (e.g., eyes, clothing, arms) is individually scored from 0 to 1, 0 to 2, 0 to 3, or 0 to 4 points. A maximum score of 49 points is possible. Raw scores may be converted into a single standard score, an IQ with a mean of 100 and standard deviation of 15, a T score, a z score, or a stanine. The manual also provides percentile ranks, age equivalents,
