

Assignment 2: Comparing Social Work Across Countries

Describe Social Work in your own country of origin, including challenges and opportunities, and show how it compares to one other country.

Objective: Participants are to reflect on social work in their own country and compare it with another country

Description: This assignment is designed to have students reflect on the social work profession in their own country and how it compares to another country they are learning about in this course. The paper should be 5-7 pages, use three-course readings and two outside readings, and briefly describe the following:

Part 1: Describe the following for social work in your country:

- History of social work
- The mission of social work
- The education of social workers (degrees offered and typical training that social workers receive)
- The role of social workers (where they practice, what settings, typical jobs for social workers, and licenses they hold).

Part 2: Using the sections above, describe social work in another country

Part 3: Describe the following

- Compare and contrast social work in both countries mentioned in parts 1 and 2 (that is, social work in your country and the other country you discussed above).
- Next, provide a summary reflection of the differences and similarities of social work in both countries.

Deadline: 15.04.2024
