## Lecture 5

(i) from the 'right' of the political spectrum  
– 'free market liberals'

- development of E.U. social policy  
counterproductive (dangerous!)
- constitutes a constraint on the  
functioning of the free-market

'superstate' and large bureaucracy

# Political Issues and Social Policy in the E.U.

## Lecture 5

(ii) from the 'left' of the political spectrum – social democrats

- development of E.U. social policy is a positive and necessary development
- needed to protect E.U. citizens from worst excesses of free-market
- plus, has economic gains for the market as assists in production of highly skilled, well-trained, well educated workforce

‘Social Dimension of the Internal Market’

‘ Social policy must, above all, contribute to the setting up of a “single labour market” by doing away with the barriers which still restrict the effective exercise of two basic freedoms: the freedom of movement of persons and the freedom of establishment.’
