

Briefing for the Bees: Green Economists and Labour or Work

This brief gives you some useful resources on labour or work. I have also uploaded a chapter from my book *Green Economics* on this issue into this folder. Remember that how people work, i.e. how the company is structured, is also relevant to the question of green work, so the information on co-operatives from the last teaching session is relevant.

These two books you can find in the FSS library are also useful:

Molly Scott Cato, *Market, Schmarket*: G1-1318

Jonathon Porritt, *Capitalism as if the World Matters*: L2-968

Some online resources you may find useful:

What is a green job?
