The green M&M has spent decades building her brand as a horny, sexy bitch, and for what? For her creators to give her Larry David footwear in the name of feminism? For Mars Wrigley to give themselves pats on the back and big fat fucking raises at the next corporate retreat in Palo Alto? Guess what: the green M&M is a feminist, *and* she's a dirty slut. We are real, and we exist, and we refuse to tolerate this disgusting attempt at erasure. We are given so little, and we have tolerated so much. Let the green M&M keep her go-go boots. Let her get blackout and suck dick in the bathroom at Acme on a Wednesday. This is what we want. This is what we deserve. This is what *she* deserves.
